11. Why are you interested in becoming a Delegate? Please describe the skills and experiences you would bring to the Delegate Assembly. \*

I have been a teacher for 28 years in California public schools. I am advocate for funding our schools which is abysmal at best. We need teacher voices to describe the inequities in funding and common sense in the classroom. We need to be treated as professionals, experts in our craft, and politically savvy members of society. California is failing our students. Let's change that.

12. Please describe your activities and involvement on your local board, community, and/or CSBA. \*

I have been on our local school board for 4 years and have been nominated to this position. I attend as many community events as I can, but more importantly I speak up. I listen. I hear what parents and educational staff are saying and what their needs are. I bring that back to our board and district office. I fight for public education.

13. What do you see as the biggest challenge facing governing boards and how can CSBA help address it? \*

The biggest issue facing governing boards are politics and the segment of society that does not believe in education for all. Today, during these times, there is some danger in being on the board, especially in some areas. We need to be mindful and respectful of others yet take our safety seriously.
