HART CAREER CENTER
Board of Education Report

Mr. Chris Denham, Director

February 2024

Cosmetology
The salon is now open to the public Monday, Wednesday and Friday. Students have begun working on live clients

Construction
Construction classes are currently working different types of roof framing and recently completed framing a hip roof. Next they will progress to sheathing and shingles. Andy Bonderer's crew also recently visited and walked students through concrete form setting.

Graphic Arts
Central Bank of Boone County recently donated a UV printer to the graphic arts program. This printer will print on multiple (non-flat) surfaces and will greatly expand the range of products we are able to produce.

Welding
With surplus equipment finally cleared out, the welding department has been organizing the old paint booth building to more efficiently store welding supplies. Other areas of the shop and classroom are also being streamlined in anticipation of the upcoming bond remodel project in that area.

Adult Agriculture
Mexico Young Farmers annual Soils and Crops Conference was held on January 27 at hart Career Center. We had over 60 guests in attendance to hear speakers on various agricultural related topics.

FFA

- FFA week kicks off on Feb. 17 with the annual Food Insecurity day. THis year the chapter raised over $6000 purchase food for the Help Center.
- Various other events and activities are planned throughout the week.

SkillsUSA

- District SkillsUSA Competition will be held on Feb. 14 in Kirksville. HCC will be hosting the welding contests due to inadequate facility in Kirksville. We have multiple students participating at the district level, and several others that will go straight to state competition in April.
