

**Policy 5113.1: Chronic Absence And Truancy**

**Status:**  
ADOPTED

**Original Adopted Date:** 04/12/2017 | **Last Revised Date:** 12/14/2020 | **Last Reviewed Date:** 12/14/2020

The Governing Board believes that absenteeism, whatever the cause, may be an early warning sign of poor academic achievement and may put students at risk of dropping out of school. The Board desires to ensure that all students attend school in accordance with the state's compulsory education law and take full advantage of educational opportunities provided by the district, and that students who are identified as chronically absent or truant receive appropriate support services and interventions as early as possible.

The Superintendent or designee shall establish a system to accurately track student attendance in order to identify individual students who are chronic absentees and truants, as defined in law and administrative regulation, and to identify patterns of absence throughout the district.

The Superintendent, attendance supervisor, or designee shall consult with students, parents/guardians, school staff, and community agencies, as appropriate, to identify factors contributing to chronic absence and truancy, including in relation to grade level and student subgroup patterns of chronic absence and truancy.

The Superintendent, attendance supervisor, or designee shall develop a tiered approach to reducing chronic absence. Such an approach shall include:

1. Strategies for preventing attendance problems, which may include, but are not limited to, efforts to provide a safe and positive school environment;
2. Relevant and engaging learning experiences;
3. School activities that help develop students' feelings of connectedness with the school, including personalized relationships between students and teachers and/or support staff;
4. School-based health services;

5. Letters alerting parents/guardians to the value of regular school attendance, **including the use of bilingual aides and communication in the primary language used by parents/guardians;** and
6. Incentives and rewards to recognize students who achieve excellent attendance or demonstrate significant improvement in attendance.

The tiered approach shall also provide for early outreach to students as soon as they show signs of poor attendance or if they were chronically absent in the prior school year. Early intervention may include personalized outreach, individual attendance plans, and/or mentoring to students with moderate levels of chronic absence, with additional intensive, interagency wrap-around services for students with the highest level of absence.

Students with serious attendance problems shall be provided with interventions specific to their needs, which may include, but are not limited to:

1. Health care referrals;
2. Transportation assistance, ~~counseling;~~
3. **Counseling, including trauma-informed practices,** for mental or emotional difficulties;
4. Academic supports;
5. Efforts to address school or community safety concerns;
6. Discussions with the student and parent/guardian about their attitudes regarding schooling; or
7. Other strategies to remove identified barriers to school attendance.

The Superintendent, attendance supervisor, or designee may collaborate with child welfare services, law enforcement, courts, public health care agencies, other government agencies, and/or medical, mental health, and oral health care providers to make alternative educational programs and support services available for students and families.

The Superintendent or designee shall ensure that all attendance interventions are culturally responsive and take into account diverse family contexts and circumstances. This may include:

1. Training for attendance staff on cultural competence and implicit bias
2. Reviewing intervention practices to identify and eliminate approaches that may be culturally insensitive or stigmatizing
3. Involving culturally diverse staff and community and government partners in developing and implementing attendance strategies
4. Ensuring communication about attendance is provided in families' primary languages and in culturally respectful ways
5. Recognizing and respecting cultural, religious, and family observances that may affect attendance

6. Adapting approaches to meet the specific needs of refugee and immigrant families, Native American families, and other culturally distinct groups within the district

The Superintendent or designee shall ensure that staff assigned to fulfill attendance-related duties are trained in implementing a trauma-informed approach to chronic absence and receive information about the high correlation between chronic absence and exposure to adverse childhood experiences.

Students who are identified as chronically absent or truant shall be subject to the interventions specified in law and administrative regulation.

To provide students with an opportunity to make up lost instructional time and offset absences, the Superintendent or designee may implement an attendance recovery program for students in grades transitional kindergarten-12. Any such attendance recovery program shall be primarily funded through average daily attendance (ADA) from its respective program or other restricted funds dedicated to credit recovery and operated in accordance with Education Code 46211 and as specified in the accompanying administrative regulation.

A student's truancy, tardiness, or other absence from school shall not be the basis for suspension or expulsion. Alternative strategies and positive reinforcement for attendance shall be used whenever possible.

The Superintendent, attendance supervisor, or designee shall periodically report to the Board regarding student attendance patterns in the district, including rates of chronic absence and truancy districtwide and for each school, grade level, and numerically significant student subgroup as defined in Education Code 52052. Such information shall be used to evaluate the effectiveness of strategies implemented to reduce chronic absence and truancy and to develop annual goals and specific actions for student attendance and engagement to be included in the district's local control and accountability plan and other applicable school and district plans. As appropriate, the Superintendent or designee shall engage school staff in program evaluation and improvement and in the determination of how to best allocate available community resources.

The Superintendent or designee shall conduct quarterly analysis of chronic absence and truancy data disaggregated by specific student populations. This analysis shall:

1. Identify specific student groups experiencing disproportionate rates of absence or truancy

2. Examine root causes of disparities, including potential institutional practices that may create barriers
3. Develop targeted strategies to address identified disparities
4. Set measurable goals for reducing attendance gaps between student groups
5. Regularly report progress toward these goals to the Board

Schools with significant attendance disparities between demographic groups shall be required to develop specific action plans to address these gaps. The district shall provide additional resources and support to these schools as needed.

### **Removing Institutional Barriers**

The district shall regularly assess and address structural and institutional barriers to attendance, including:

1. Transportation challenges, particularly for students from low-income households or those experiencing housing instability
2. School scheduling that conflicts with family obligations or cultural practices
3. School climate issues that may make students feel unsafe, unwelcome, or disengaged
4. Health-related barriers, including lack of access to necessary medications or health services at school
5. Policies or practices that may unintentionally penalize students facing social or economic challenges
6. Access to technology or materials needed for successful school participation
7. Flexibility to accommodate legitimate family needs without penalizing students
8. All barriers should be examined from the District and community-wide perspective including other governmental agencies.
