## WCPSS ENROLLMENT PLAN, 2018-19

### YEAR FOUR OF A MULTI-YEAR APPROACH TO GROWTH MANAGEMENT

Prepared by: Office of Student Assignment

Board of Education Work Session  
September 19, 2017

# Overview

- **Growth**
- **Student Achievement, 2019-20**
- **New Schools, 2018-19**
- **Operational Efficiency, 2018-19**
- **K – 3 Class Size Legislation, 2018-19**

## A. DRAWING OF SCHOOL ATTENDANCE AREAS

1. The assignment areas will be developed by balancing, to the extent reasonable, the goals and factors set forth below and will include target ranges, where appropriate, to accomplish these goals and factors:

- a) Student Achievement**

- **Factors for consideration include:**

- minimizing high concentrations of low-performing students at each school; and
    - minimizing high concentrations of students from low income families at each school.

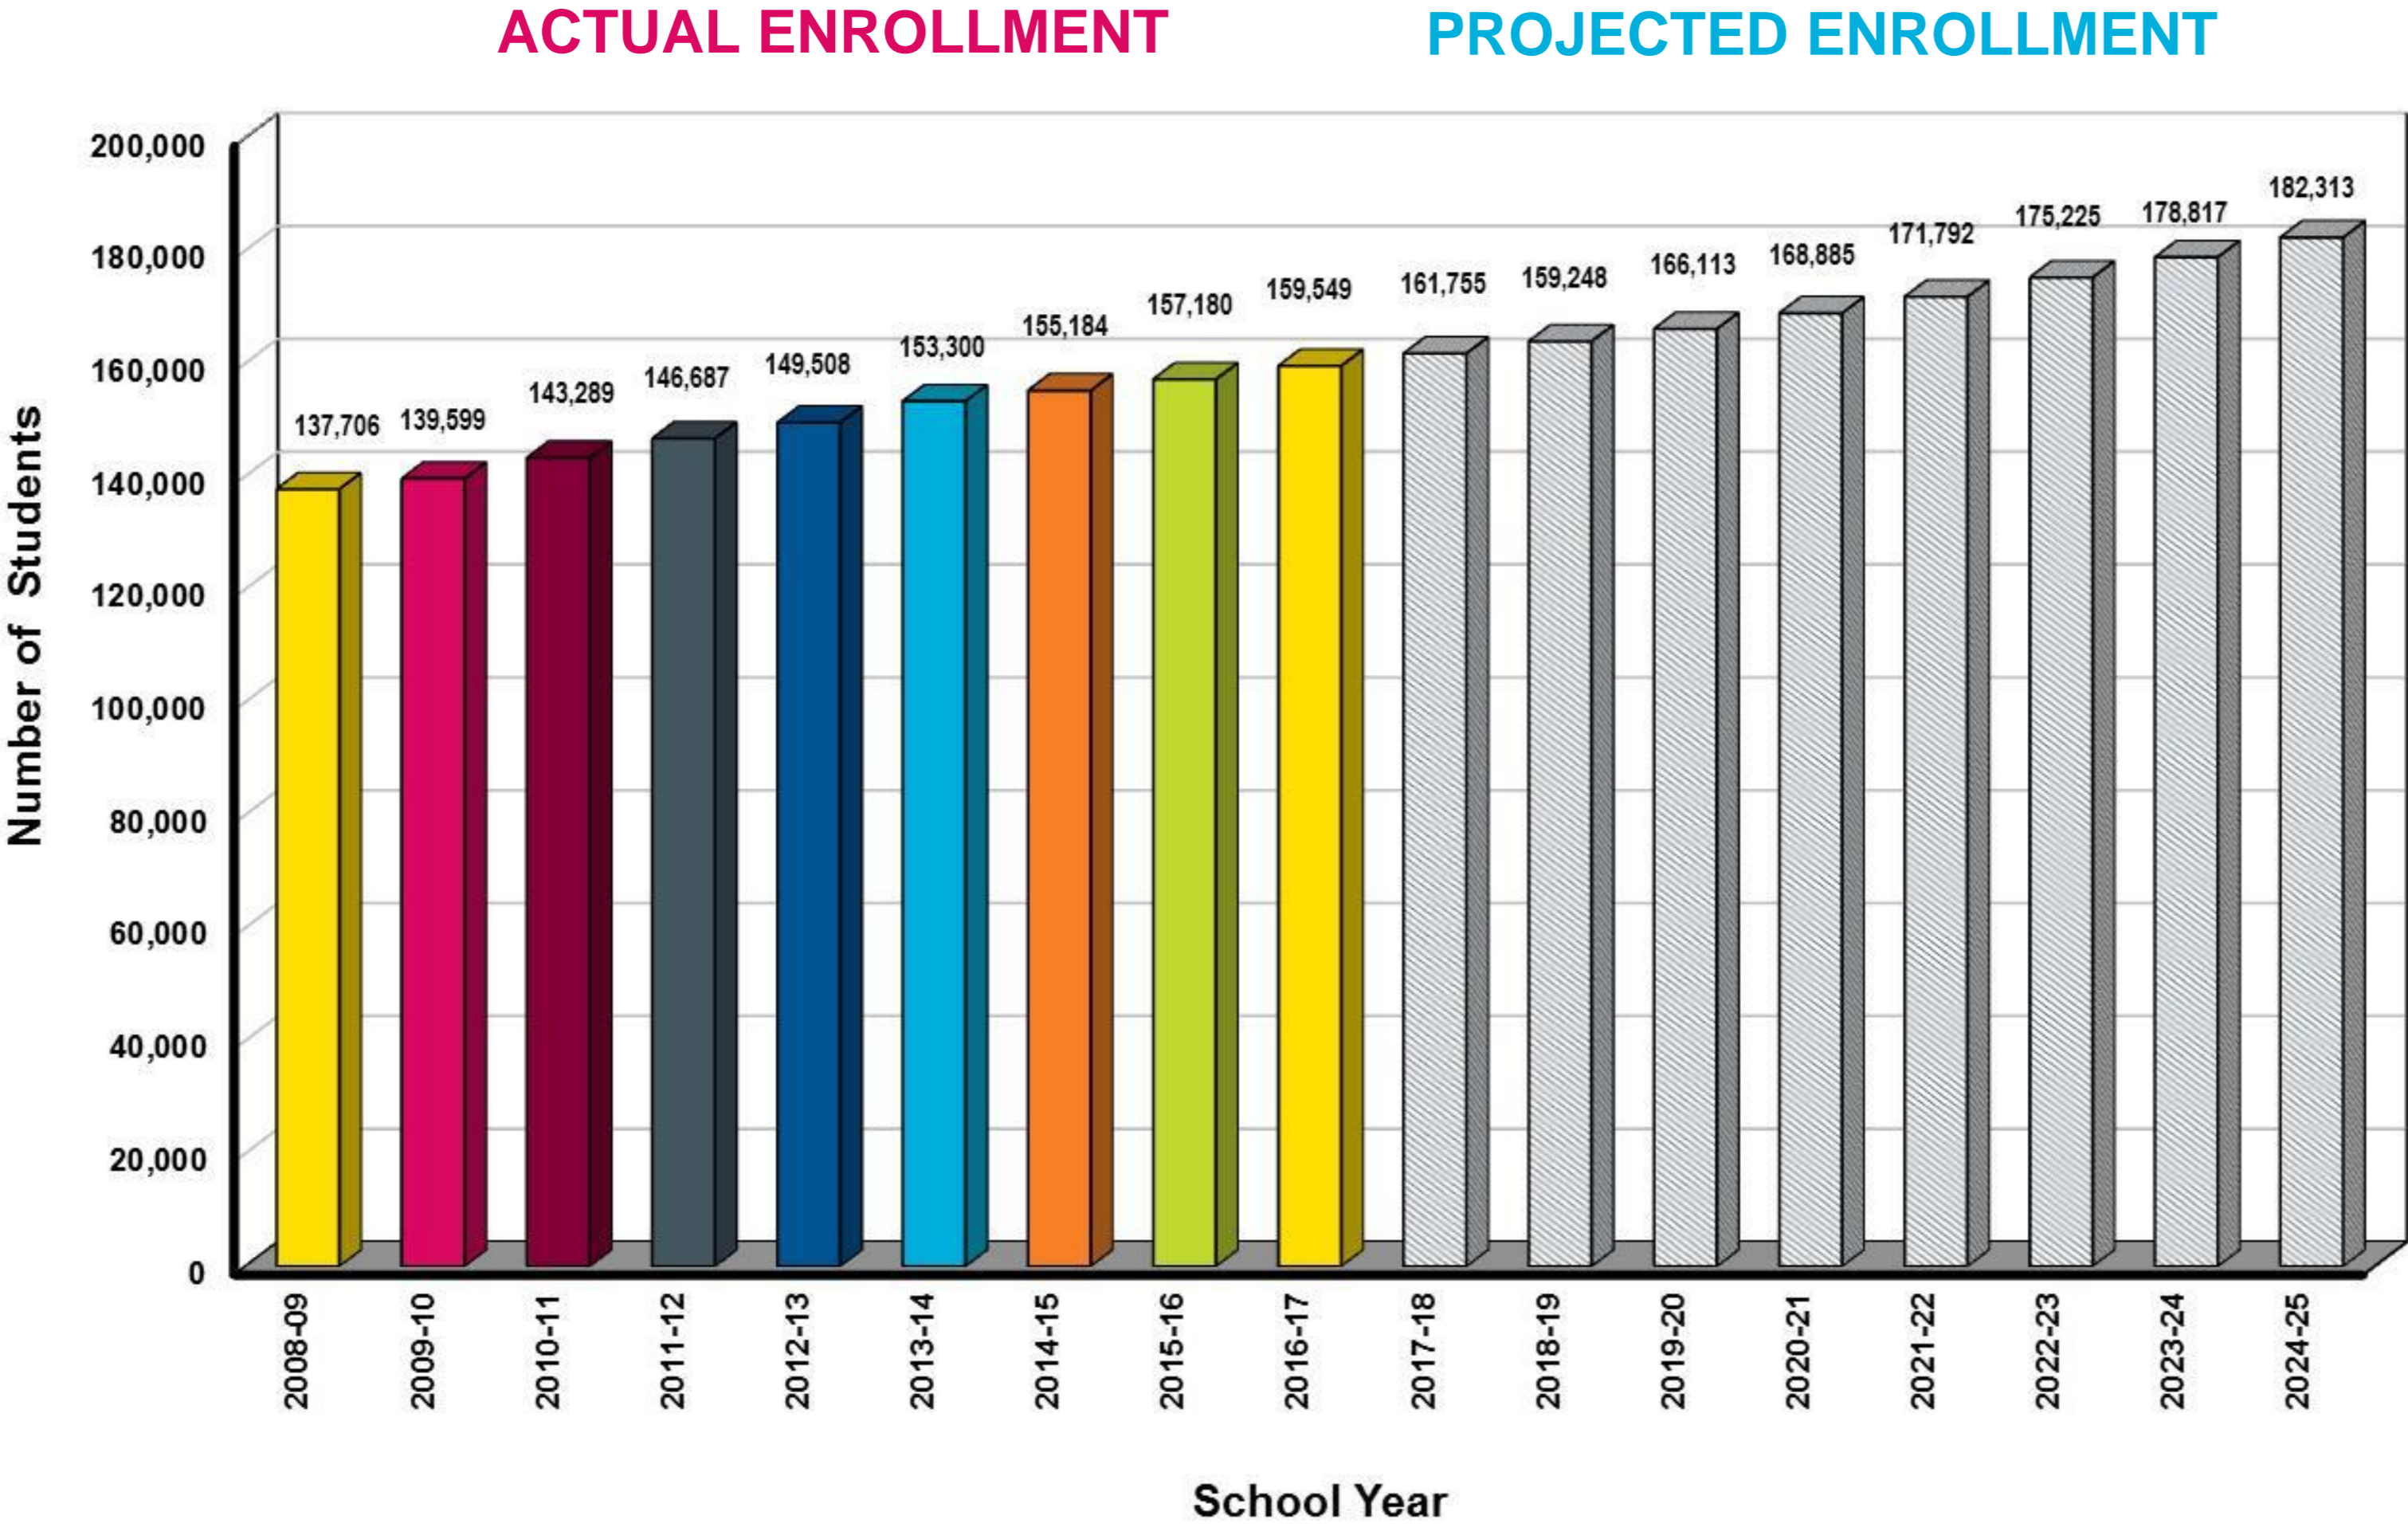

- b) Stability**

- c) Proximity**

- d) Operational Efficiency**

Note: More detailed information is included in Addendum

# Enrollment Growth, 2008 – 2024

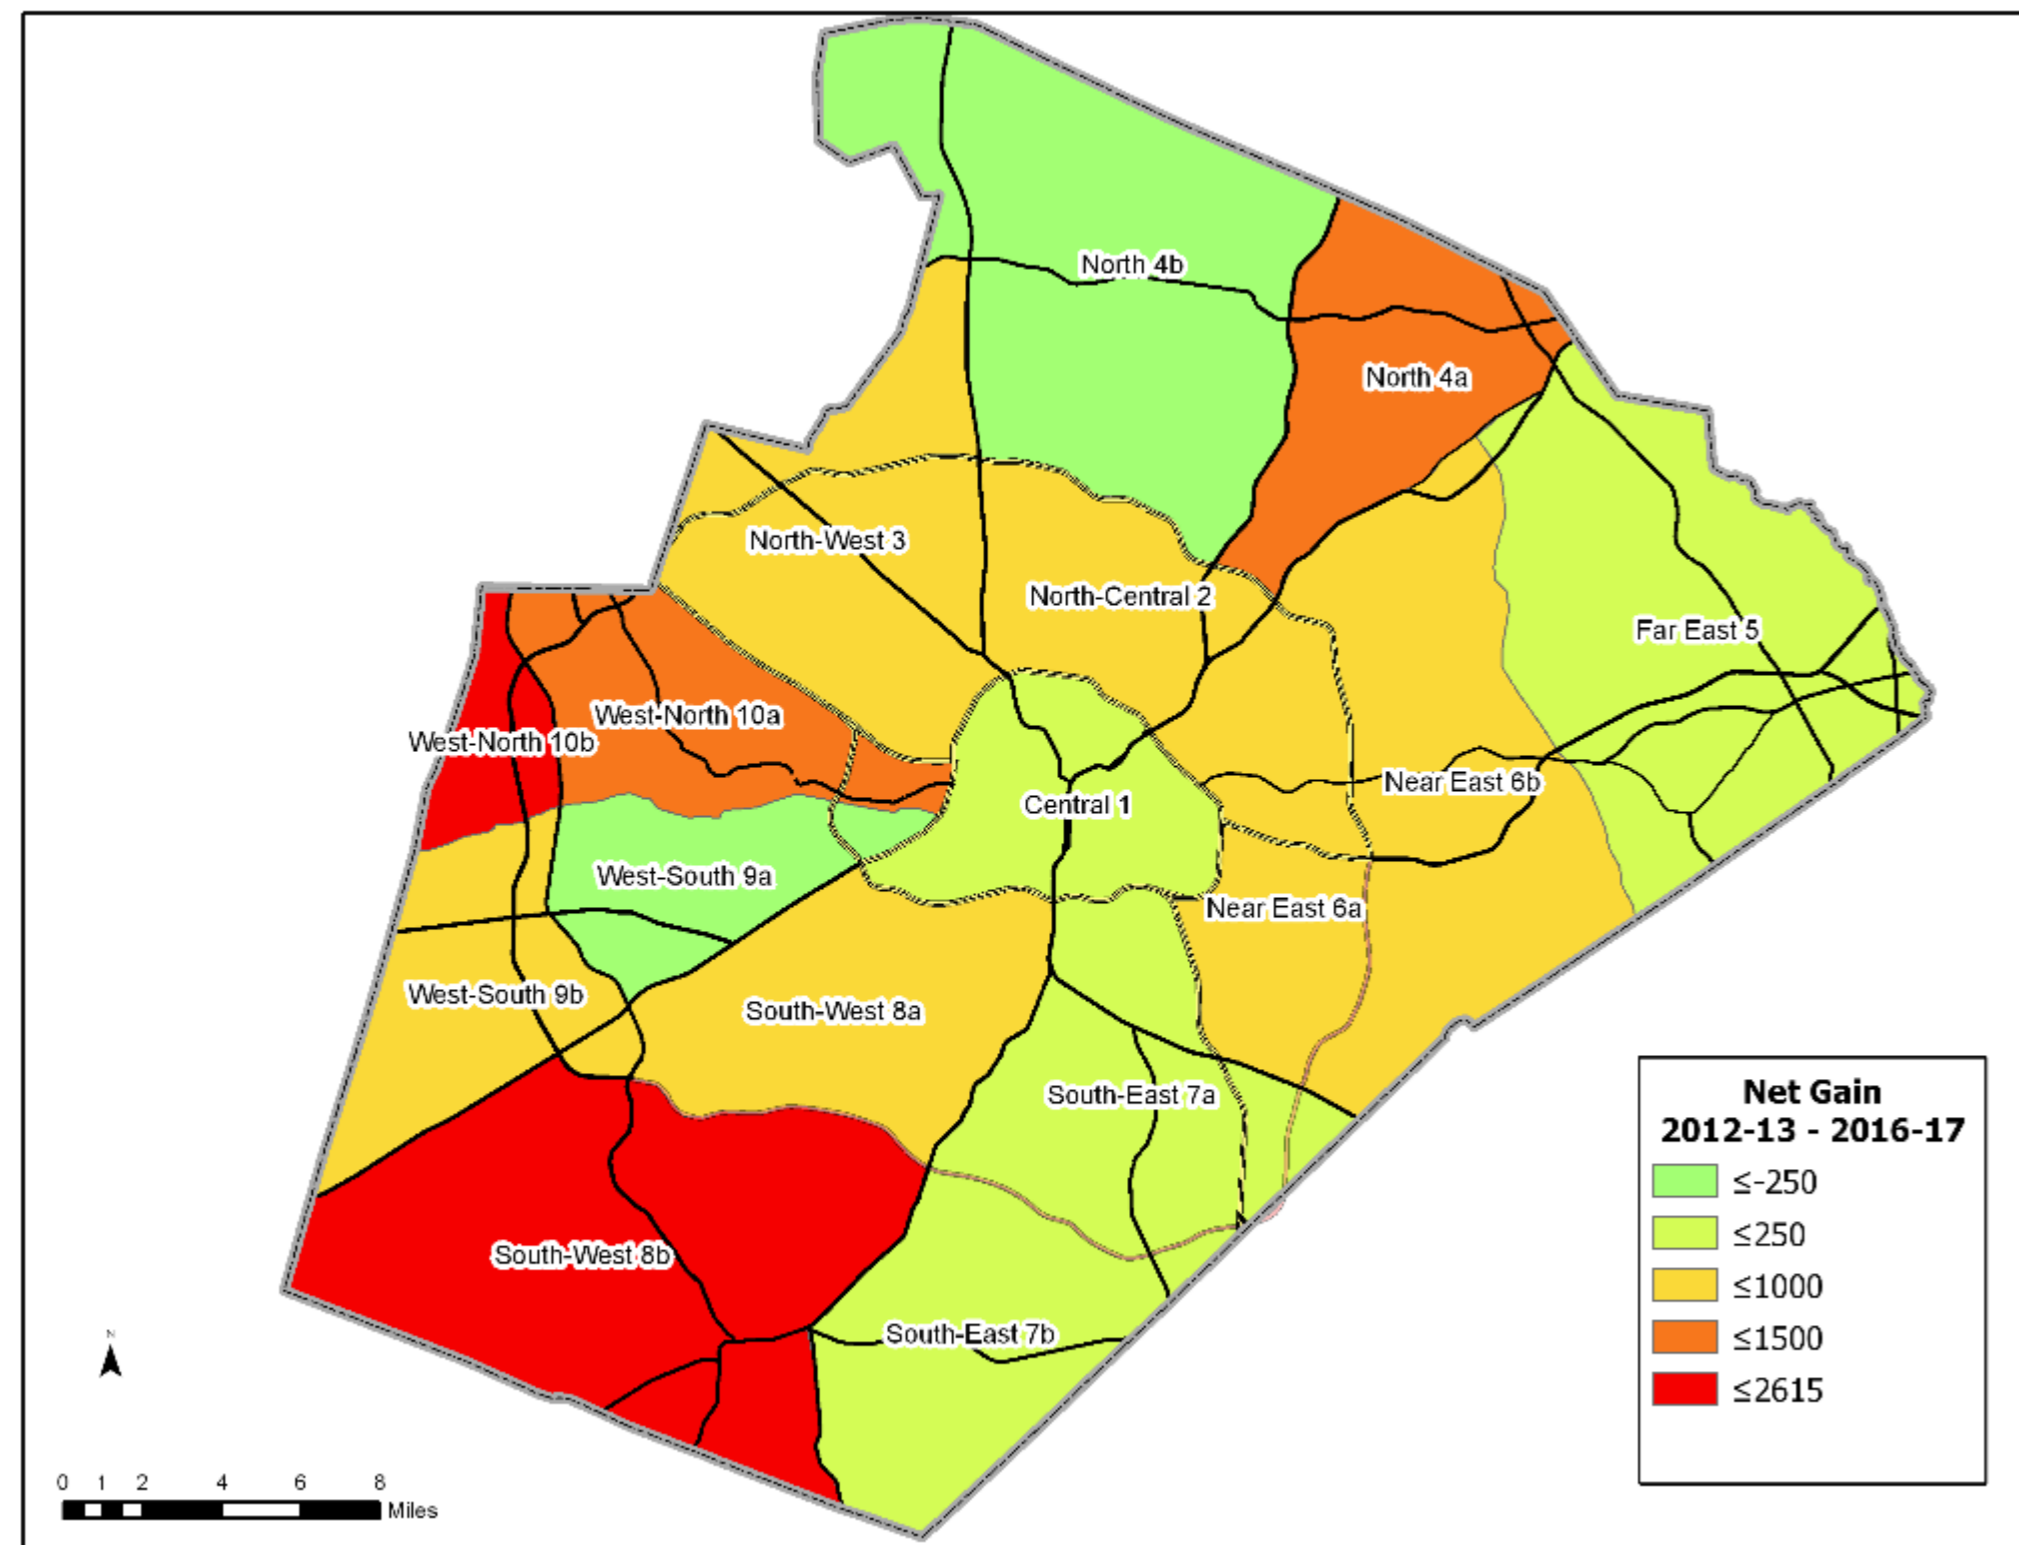

**Actual Enrollment  
(2008 - 2016)**  
 Student Growth = **21,843**  
 Avg. Annual Growth = **2,730**

**Projected Enrollment  
(2017- 2024)**  
 Projected Student Growth = **22,764**  
 Projected Avg. Annual Growth = **2,846**

Projections: Presented to the BoE, January 11, 2017

# Base Percentage In New Schools

The K-5 membership residing within the base of a new elementary school shows a significant increase in the percentage of students attending their base school after it opens.

In each case the membership within the new base was compared before/after the school opened over a one- to two-year period.

# Academic Proficiency

For assignment purposes, academic proficiency is calculated three ways: Residential, Base, Non-Base Students.

## STUDENT PROFICIENCY DATA ASSUMPTIONS:

1. 2016-17 student data from WCPSS geocode linked to proficiency score
2. 2016-17 Reading/English proficiency scores for grades 3-10

## TABLE LEGEND:

Res = Residential student count inside base

Base = Base student count inside base (IND = 1 or 2)

Calendar = Students returning to preferred calendar

Non-Base = Current students attending from outside base

Base % = Percentage of base vs. residential students

Utilization =  $(\text{Base} + \text{Calendar} + \text{Non-Base}) / \text{Capacity}$

## PROFICIENCY LEGEND:

Res = Mean proficiency of students residing in base

Base = Mean proficiency of base students in base

Non-Base = Mean proficiency of non-base students

Agg = Aggregate mean proficiency of base and non-base students (October 2016 student geocode)

Actual = Reading/English proficiency by school 2016-17 (May 2017 student membership)

# Operational Efficiency

- a) Increase base attendance area for selected schools
- b) Address schools with enrollment caps
- c) Adjust year-round application areas for improved utilization at year-round schools and greater acceptance rate

# Grandfathering

- **Elementary Students**

- To utilize new school capacity and meet State mandated class-size reduction for grades K-3:
  - Elementary school students who experience an assignment change as a result of this enrollment proposal, and are rising into **grade 5**, are eligible to request a **transfer** to “grandfather” at their current assignment. These requests will be approved.
  - Grandfather requests can be made through the School Transfer process and grandfathered students will **not receive district transportation**.
  - **Siblings of eligible grandfather students are not eligible to grandfather.**

# Grandfathering (cont.)

## Middle School and High School Students

- Students who experience an assignment change as a result of this proposal:
  - From **an existing school to an existing school**, all current students in 6, 7, 9, 10, 11 grades are eligible to request a **transfer** to “grandfather” at their current assignment. These requests will be approved.
    - **Siblings of eligible grandfather students are not eligible to grandfather.**
    - Students who request to grandfather are **transfer** students and **no transportation will be provided.**
  - From **existing school to a new school** (for students rising into grades 8, 11 and 12 only) are eligible to request a **transfer** to “grandfather” at their current assignment. These requests will be approved.
    - **Siblings of eligible grandfather students are not eligible to grandfather.**
    - Students who request to grandfather are **transfer** students and **no transportation will be provided.**
  - Grandfather requests can be made through the School Transfer process and grandfathered students will not receive district transportation unless they are in grades 11 and 12 and assigned to a new high school.

### \*\*\*CALCULATED FIELDS\*\*\*

Attending Base is calculated by subtotaling all assignment indicators of "1"

Not Attending Base is calculated by totaling all assignment indicators that are not equal to "1"  
(V indicators are not included in this total)

% of Base Attending Base is calculated by dividing attending base totals by total students

% of M+B is calculated by adding totals of M and B together and dividing the total by total students

% of G+S is calculated by adding totals of G and S together and dividing the total by total students

% of P is calculated by dividing P totals by total students

% of T is calculated by dividing T totals by total students

Total Students is calculated by totaling all student ids that have a base school

Base Schools are determined by the student's address.

Students that have a "K" Indicator will not have a base school populated in the system.

Students that have a "9" Indicator will not have a base school populated in the system.

Students with a "V" indicator are not populated in this report.

**\*\*\*CALCULATED FIELDS\*\*\***

Attending Base is calculated by subtotaling all assignment indicators of "1"

Out of Base is calculated by totaling all assignment indicators that are not equal to "1"  
(V indicators are not included in this total)

% of M+B is calculated by adding totals of M and B together and dividing the total by total students

% of G+S is calculated by adding totals of G and S together and dividing the total by total students

% of P is calculated by dividing P totals by total students

% of T is calculated by dividing T totals by total students

Total Students is calculated by totaling all student ids that have a base school

Total Students is calculated by totaling all student ids that are attending a current school within the range of 300 - 799

## e) WCPSS Board Policy 4150

“Student populations at each school will provide an optimal opportunity for academic success for all students.

Students will have the opportunity to stay at the same base school with their siblings through the exit grade without experiencing involuntary changes in school assignment. However, when reassignments are necessary for the opening of a new school this may not be guaranteed

Base school assignments will be within a reasonable distance of the student's home.

Assignments will optimize the use of school facilities and transportation resources.

### a. Student Achievement

**Factors for consideration include:**

1. providing an opportunity for families to request calendar, magnet, and application schools to support an individual student's educational needs;
2. minimizing high concentrations of low-performing students at each school; and
1. minimizing high concentrations of students from low income families at each school.

### b. Stability

**Factors for consideration include:**

1. providing an opportunity for students to remain at the same base school which they are attending (stay where you start);
2. providing an opportunity for siblings to attend the same school at the same time; and
3. providing an opportunity for year-round track/calendar alignment for siblings in grades K-8.

### c. Proximity

**Factors for consideration include:**

1. allowing students living within the immediate vicinity of a school, defined by the assignment plan, to attend that school; and
2. minimizing splitting of neighborhoods when developing base attendance areas..

### d. Operational Efficiency

**Factors for consideration include:**

1. minimizing under-enrolled schools;
2. minimizing overcrowded schools; and
3. maximizing transportation efficiencies.”
