

California School Dashboard 2025

November 20, 2025

What is the Dashboard?

The **California School Dashboard** is an online tool hosted by the California Department of Education (CDE) since 2017 that allows members of the public to access easy-to-read reports on the performance of schools and districts across the state.

<https://www.caschooldashboard.org/>

What is the Dashboard?

The Dashboard includes standardized reports on:

- Academic Performance in English
- Academic Performance in Math
- Graduation Rates
- College and Career Readiness
- Suspension Rates
- English Learner Progress

What is the Dashboard?

The Dashboard also includes self-reported results in five “local performance indicators”:

1. Access to Basic Educational Necessities
2. Implementation of Academic Standards
3. Parent & Family Engagement
4. Local Climate Survey
5. Access to a Broad Course of Study

What is the Dashboard?

The 2025 version of the Dashboard went live on November 13, 2025.

(This year's Dashboard release occurred a week earlier than last year, as the state slowly migrates the annual publication to mid October.)

What is the Dashboard?

Results are reported for all students and for “numerically significant” subgroups, which for LGSUHSD include:

- Asian
- English Learners (not “numerically significant” in all reports)
 - Long-Term English Learners
- Hispanic
- Socioeconomically Disadvantaged
- Students with Disabilities
- Two or More Races
- White
