

Natalia Olivera
12th Grade
Ridgway High School

My experience as a student board member has been great. I was able to communicate more with people, which made me feel more confident speaking to a large crowd. It has opened my eyes further and shown me other problems and concerns that parents have about their children's learning at school in general. I am no longer able to continue serving as a student board member because I'm taking classes at Santa Rosa Junior College and have secured an internship on Wednesdays, the same day as the board meetings. I am very grateful for the experience that I've received.

Thank you.
