2024-2025 School Accountability Report Card (Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

2025-26 School Description and Mission Statement

Piner High School is a dynamic and inclusive educational community committed to preparing students to thrive in the 21st century. Grounded in compassion and high expectations, the school fosters an environment where students are encouraged to engage deeply in learning through inquiry, collaboration, creativity, perseverance, and academic rigor. Piner High School emphasizes civic engagement and personal responsibility, ensuring students graduate equipped with the skills, knowledge, and character necessary for success in college, career, and community life.

Guided by its Schoolwide Learner Outcomes (SLOs), Piner High School prioritizes rigorous learning experiences that challenge students to push beyond their perceived limits and actively construct knowledge. Students are expected to engage fully in the

learning process, think critically, and apply diligence and effective techniques to produce thoughtful, polished work. Through these practices, students develop confidence in their abilities and a strong sense of ownership over their academic growth.

Collaboration, creativity, and perseverance are central to the Piner experience. Students learn to work effectively with diverse peers by communicating clearly, respecting differing perspectives, and synthesizing ideas to achieve shared goals. They are encouraged to question, gather, analyze, and apply information from multiple sources while persisting through challenges with determination and purpose. These outcomes ensure that Piner High School students are not only academically prepared, but also resilient, innovative, and ready to contribute meaningfully to a rapidly changing world.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements

The district uses the Facilities Inspection Tool (FIT) which was developed by the State of California Office of Public School Construction to evaluate the conditions at each school site with ratings of "good, fair, or poor" The FIT also provides an overall summary of the school conditions at each school site on a scale of "exemplary" good, fair or poor. Detailed information from the FIT is listed in Section IV of the complete SARC and is also available at the District Office.

This school was inspected in October 2025 and had an overall rating of "Exemplary".

The school is maintained in good repair with a number of non-critical deficiencies noted. These deficiencies are isolated, and/or resulting from minor wear and tear, and/or in the process of being mitigated.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2024-25 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. 2024-25 Career Technical Education Programs

Piner High School offers a robust Career Technical Education (CTE) program designed to prepare students for success in college, career, and life. CTE courses provide students with rigorous academic instruction alongside technical and real-world learning experiences that build practical skills, industry knowledge, and career awareness. Through hands-on, project-based learning, students develop critical thinking, problem-solving, collaboration, and technical competencies aligned with high-demand career fields.

CTE programs at Piner High School follow a multiyear sequence of courses that integrate core academic standards with occupational and technical training, creating clear pathways to postsecondary education and workforce opportunities. Several CTE courses are college-preparatory and/or articulated with the local community college, allowing students to earn college credit through the Credit by Exam process. Additionally, select CTE pathways offer students the opportunity to earn industry-recognized certifications, further strengthening college and career readiness.

Current CTE pathways at Piner High School include Health Science and Biotechnology, Culinary Arts, Engineering, Construction and Design, and Geospatial Technology. These programs provide students with meaningful exposure to career fields while supporting informed decision-making about future education and employment options. For additional information about Career Technical Education programs, families are encouraged to visit the Santa Rosa City Schools website.

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

Piner High School values families as essential partners in student success and is committed to providing meaningful opportunities for parent and guardian involvement in school decision-making and community life. Through regular communication, inclusive practices, and multiple avenues for engagement, the school works to ensure families feel welcomed, informed, and empowered to support student learning and well-being.

The School Site Council (SSC), which includes parent representatives, plays a key role in guiding the school's direction by approving the annual School Plan for Student Achievement and advising both the school and parent community on educational priorities. In addition, Piner High School offers a variety of active parent and community groups that meet regularly and encourage broad participation, including the Piner School Spirit Association (PSSA), the Piner Boosters' Club, the English Learners' Advisory Committee (ELAC), the SPARQ Board, and the Piner High School Foundation.

These organizations provide families with ongoing opportunities to collaborate with school leadership, support academic and extracurricular programs, and strengthen school culture. By welcoming new members and valuing diverse voices, Piner High School fosters strong home-school partnerships that enhance student achievement, promote belonging, and reinforce a shared commitment to the success of all students.

2025-26 School Safety Plan

The 2025-2026 School Safety Comprehensive Framework by Santa Rosa City Schools emphasizes creating a safe, inclusive, and empowering environment that supports both academic success and emotional well-being. Grounded in the values of embrace, engage, and empower, the framework outlines nine focus areas: campus security enhancements like controlled access and surveillance, sufficient safety equipment, and professional development for staff regarding safety protocols and wellness. It also highlights mental health supports such as counseling services and conflict resolution programs, and collaboration with first responders and community partners for coordinated incident responses. A multidisciplinary threat assessment protocol, standardized emergency responses, and the implementation of an Incident Command System (ICS) ensure the district is prepared for various emergencies. Finally, reunification and recovery protocols aim to restore normalcy post-crisis, focusing on emotional and logistical support for students and families.

The plan also integrates continuous improvement measures, such as regularly updating emergency plans and conducting drills, and is aligned with the district's Facilities Master Plan to ensure feasibility and sustainability. The framework underscores the collective responsibility of staff, families, students, and community partners in fostering a culture of safety and readiness. By addressing physical, emotional, and systemic aspects of school safety, the framework sets the foundation for nurturing an environment where students feel secure and empowered to achieve their full potential. It reaffirms the district's commitment to collaborative, data-driven approaches to enhance safety across all campuses.

Site-Based Safety Plan Information:

Piner High School is located in a residential setting that supports our closed campus policy. Four administrators, five School Safety Advisors (including Student Advisor, Campus Supervision, and School Safety Advisor) are very visible around campus before school, at break times, during passing periods, and after school. In addition, a camera system monitors areas of the campus 24-hours a day, while security alarms are equipped on all buildings and are armed overnight and on weekends.

The school strictly follows the California Education Code regarding the safety and security on campus. Each month, the school holds drills to practice procedures for various types of emergency situations. Piner High School has an active Safety Committee that supports the school administration in reviewing and implementing safety protocols and practices. The School Safety Plan is reviewed by elected representatives of all stakeholder groups on a yearly basis and changes are made when appropriate and necessary.

Fiscal Year 2024-25 Types of Services Funded

Piner High School receives Title 1 funding and Local Control Formula Funding (LCFF). Both sources of funding provide support for struggling and at-risk students, most notably for students who are English learners, foster youth, and low income.

In addition, staff at Piner High School receive access to professional development as funded through Title II, which is allocated to the Office of Educational Services, 7-12. The professional development activities sponsored through Title II and through our own site funding focus on support for struggling students in English, mathematics, science, and social science with an emphasis on Common Core Standards, 21st Century learning skills, and Science, Technology, Engineering, and Math (STEM) education.

. In addition, the funding provides grant opportunities for teachers to develop instruction, collaborate with colleagues, and attend professional development.

ideas, culturally relevant math modeling, Building Thinking Classrooms, formative assessment, and Boaler’s strategies for growth mindset and positive math identity. Redesign efforts included professional learning support to sites and leaders with a focus on implementation of the New California Math Framework. Wellness and Engagement staff provide professional development to site Restorative staff and School Safety Advisors. Opportunities to be part of a collaborative focusing on supporting the needs of our multilingual learners is offered multiple times throughout the year.

Secondary Principals participate in Instructional Rounds of professional development five times a year. Vice Principals participate in professional learning specific to their roles and responsibilities, equity, master schedule, instructional leadership, SRCS Mission, Vision, and Priorities, data analysis for improving schools, using data in support of an aligned assessment system, supervision and evaluation, along with specific district and site based programs and initiatives. All instructional administrators participate monthly in professional development on topics ranging from Essential 5, Incident Command, Data Protocols, and Differentiated Instruction.

The district offers 2 full days of professional development for all Classified and Certificated staff.
