Re: Force Majeure Price Increases

Since the beginning of this school year Sanitech has incurred several price increases due to supply chain issues from decreased capacities of raw materials, increases in freight, packaging, fuel, labor and shifts in product demand.

Up until now we have just absorbed these increases but the time has come where we can no longer do so and must pass the most recent increases along to our customers.

This letter is to inform you that Sanitech Systems will be forced to increase prices on the Cleaning Genie program currently being provided to DeKalb County schools. The attached price list reflects these increases and will go into effect beginning August 1, 2022.

We will agree to rollover these new prices for the 2022-2023 school year if acceptable by DeKalb County.

Unfortunately, the reality is that the challenges ahead continue to slow the recovery processes all across our country.

As always, we appreciate your business and understanding during these tumultuous times.

Please contact us with any questions.
