

“COMMUNICATION, COMMUNITY, CONNECTION”

Our core value: Connecting communities through compassionate services while breaking down communication barriers.

WHO WE ARE

Language Integration was formed in 2015 and is owned and operated by immigrants who understand the communication barriers between two people who do not speak the same language nor share the same culture. Our interpreters bridge those communication gaps! The owners have been in the industry as interpreters, schedulers, coordinators for a combined 20 years.

As one of the fastest growing language services providers, our employees and interpreters know that what they do matters. Together we are making a difference in communities through communication and connections. Every day, we help hundreds of limited English speakers overcome communication barriers, connect with their providers, build trust and grow as a community. It is this compassion for helping others that drives our culture of excellent services!
