

Mr. Erick Hofstetter, Chief Operating Officer  
DeKalb County School District  
1780 Montreal Road  
Tucker, GA 30084

Dear Mr. Hofstetter,

Frontline Impact Project, a program of the Lubetzky Family Foundation, is working with Lysol® to donate 14 million packs of disinfectant wipes to teachers across America to keep kids in school as part of Lysol®'s Here for Healthy Schools campaign. Frontline Impact is pleased to offer this donation opportunity to DeKalb County School District for the 2022 - 2023 school year.

Pending the eligibility criteria, available on [frontlineimpact.org/wipes](https://frontlineimpact.org/wipes), Frontline Impact Project will donate one full truckload of Lysol disinfecting wipes to DeKalb County School District. The donation includes 40 pallets or 30,000 packs of wipes, which, based on the manufacturer's suggested retail price, **has a total value of \$134,100.00**. There is no cost to DeKalb County School District to receive this donation.

In order to receive this donation from the Frontline Impact Project, DeKalb County School District must meet the eligibility, agree to the terms and conditions, and follow the procedures outlined by the Frontline Impact Project team prior to February 2023.

The Lubetzky Family Foundation, a registered 501(c)(3) charitable entity, launched Frontline Impact Project in April 2020 as a matchmaking and vetting platform to support COVID-19 frontline workers. As the world continues to face challenges, our platform connects those on the frontlines of communities and crises with an unmet need with donors that want to help.

Regards,

Sanjula Singhal  
Program Manager, Frontline Impact Project
