

## **CHRONOLOGY OF THE AGENDA ITEM**

The Operations Division was approached for an easement request from Georgia Power at the Southwest DeKalb High School Site off Kelley Chapel Rd. The purpose of this project is to strengthen the existing distribution lines which service Southwest Dekalb HS. Overhead lines in the area may be more prone to outages caused by trees contacting lines or vehicular collisions. By replacing targeted portions of overhead lines and equipment, GA Power hopes to reduce the number and length of power outages experienced at the site and surrounding area.

It is requested that the Board of Education approve the easement to Georgia Power to improve distribution lines at the Southwest Dekalb High School site.
