03/31/2023

Dear Carla Smith,

Thank you for your time and interest in learning more about SafePoint® by Loomis.

**The SafePoint cash management ecosystem is specially designed to:**

- Streamline your cash-handling processes, increasing efficiency and cutting costs
- Reduce shrinkage and keep your employees and customers protected
- Improve your cash flow with guaranteed daily provisional credit
- Provide you with total access to your account data and reporting information

During our initial conversation, I learned about some of your business concerns and the problems you're hoping to solve in order to improve operational efficiency and increase security. Here's how SafePoint can help with each of those issues.

**Eliminate trips to the bank:** Deposits in a SafePoint Titan smart safe are as good as in the bank, and your personalized armored cash-in-transit schedule means no more employee trips to the bank.

**Reduce internal theft and deter robberies:** Our smart safes allow you to assign each employee an individual PIN, which gives you complete visibility of all safe transactions—and keeps employees accountable.

**Reduce need for change orders:** Optimize your cash deposits with a Titan smart safe that fits your business and cash volume needs. We have several expansion peripheral options to choose from.

**Visibility into safe and cash operations:** Our proprietary customer portal, Loomis Direct, gives you complete visibility of your reporting data and account information for all the smart safes in your service network. You can also track the status of your cash deliveries and pickups.

**Provisional banking credit:** Thanks to our network of trusted provisional banking partners, you have access to your deposits faster, allowing you to do more with your money to improve your business.

I'm eager to show you how SafePoint can improve your bottom line and power your business with solutions that are built to meet your needs today—and prepare you for the future.

Thank you again, and I look forward to earning your business.

Sincerely,

Mary Saye  
National Account Executive

# SafePoint® by Loomis We've taken cash management to the next level.

SafePoint by Loomis is the industry's premier cash management solution, combining cutting-edge, proprietary technology with Loomis' unmatched quality, service, and expertise. This fully customizable ecosystem is designed from the ground up to help businesses cut costs, increase efficiency, protect customers and employees, and boost profitability.

## The SafePoint ecosystem includes:

### SafePoint Titan advanced smart safe technology

SafePoint Titan Technology combines the latest in secure hardware with advanced software to streamline cash-handling processes, improve accuracy, and minimize downtime for any size business.

### Real-time data and reporting tools with Loomis Direct customer portal

Loomis Direct helps turn your information into better decision-making. This fully integrated customer portal provides real-time access to data and valuable cash management information from virtually anywhere via PC or mobile device.

### Dedicated IT and unmatched customer support

SafePoint is specially designed with our customers' specific needs in mind. We work as a partner to devise the best possible solutions through our customized IT development and implementation, while also providing the finest support.

### Quality and expertise from a trusted industry leader

With SafePoint, customers gain access to Loomis' secure armored cash-in-transit services, hundreds of provisional banking partnerships, and an unrivaled international network of cash management specialists.

## Titan Technology

### SafePoint Titan C

SafePoint Titan C is designed to deliver secure, reliable, auditable cash management for businesses with low to moderate cash volume—and at a lower price point. Smart safe technology eliminates manual recording and reconciling processes, allowing employees to focus on more important tasks. A smaller device footprint allows for simple, best-in-class serviceability and easy deployment.

#### Hardware features:

- 7-inch color screen
- Easy access to main CPU board and power supply via console
- Managed access with individual PINs
- Single or bulk note validator
- Support for one standard (1,200 notes) cassette
- Slot for manual drops
- Removable note validator head
- Integrated thermal printer
- RoHS compliant / CE, UL certified

#### Software features:

- Wireless or Ethernet network connectivity for integration with POS, back-office PCs, or remote locations
- Individual user PINs for complete traceability and auditability of all safe activities
- Advanced accounting features
- Software upgrades and new currency releases supported via network download
- Customized remote report download capabilities
- Storage for 48,000 financial and security transactions

#### Power requirements:

120 VAC 60Hz or 220 VAC 50Hz

# Titan Technology

## SafePoint Titan X Expansion Peripherals

SafePoint Titan X Expansion Peripherals offer fully configurable cash management capabilities for businesses that frequently replenish tills with change, have a high number of tills, or need to buy change 24 hours a day. These state-of-the-art expansion modules are designed to enhance industry-leading SafePoint Titan smart safes and are built for unmatched flexibility, ease of deployment, and simplified upgrading.

PERIPHERAL	Bulk Coin Dispenser (6 cup / 8 cup)	Bulk Coin and Note Dispenser	Low-Capacity Note Dispenser	High-Capacity Note Dispenser (3-high)	Side Car
<b>Dimensions (H x W x D)</b>	6 cup: 30.75" x 15" x 21" (781mm x 318mm x 534mm)  8 cup: 30.75" x 18.5" x 21" (781mm x 470mm x 534mm)	30.75" x 21" x 19" (781mm x 534mm x 483mm)	30.75" x 11" x 20" (781mm x 280mm x 508mm)	30.75" x 15" x 25" (781mm x 381mm x 635mm)	30.75" x 12.25" x 19" (781mm x 311mm x 483mm)

### Hardware and software features

- Audible alarm in vault door
- Wireless or Ethernet network connectivity for integration with POS, back-office PCs, or remote locations
- All transactions auditable and managed by individual user PINs
- "Buy Change" function supports exchange of large notes for smaller notes/coins
- Advanced accounting features allow for extensive list of reports

- Supports network downloads for software upgrades or for new currency releases
- Complete cash management application included (except BCND)

### Connectivity and upgrades

- Connect to SafePoint Titan smart safe via data cables provided by Loomis (up to 100')
- Peripherals can be purchased and deployed after initial system installation

# SafePoint® by Loomis

## SafePoint Titan advanced smart safe technology

SafePoint Titan technology combines the latest in secure hardware with Loomis' advanced proprietary software to streamline cash-handling processes, improve accuracy, and minimize downtime.

### Titan Technology includes:

#### Intuitive interface

The feature-rich UI with scalable design allows for simplified system enhancements and software updates.

#### Maximized communication uptime

Built-in wireless connectivity eliminates service delays or the need for IT support.

#### Integrated tutorials and diagnostics

Onscreen training materials and diagnostic capabilities help customers avoid downtime.

#### Keyless entry

Secure and remote keyless entry eliminates potential service lapses due to lack of keyed access.

### Configuration

SafePoint Titan smart safes are available with single- or bulk-note validators, and standard or XL cassettes. Additional bottom vault options and pedestals are also available.

Recommendations for custom configuration of Titan smart safes with SafePoint Titan X Expansion Peripherals are based on cash volume.

	Titan C	Titan with Storage Vault	Titan with Tube Vend	Titan with Bulk Coin and Note Dispenser
<b>STORAGE PROFILE</b>	Low to medium cash volume	Medium to high cash deposits	Medium to high cash deposits and low change order volume	Medium to high cash deposits and high change order volume

## Loomis implementation process

### **Week 1: Introduction**

Confirm order/process overview, specific client date requirements, and discuss factors that affect time frame.

### **Week 2: Follow-up**

Financial institution confirms profile status, equipment is ordered, and site survey is reviewed and forward to client.

### **Week 3: Site survey**

Timeline is confirmed with any required site modifications, and initial installation schedule is proposed.

### **Week 4: Internal setup and scheduling**

Review profile status and installation schedule, confirm setup of support and CMS operations, and confirm training availability based on installation schedule.

### **Week 5: Confirmations**

Confirm installation schedule, training times, bank profiles, and support and CMS setup.

### **Week 6: Installation**

Confirm and coordinate installations as they are completed with all parties via daily implementation call.

### **Week 7: Production sign-off**

All safes are online and operational; receive confirmation from support, as well as production sign-off.
