1 ea NOTE: Purchasers, owners, and operators are solely responsible to verify that the incoming water to the equipment is within the manufacturer's water quality specs as outlined on the product spec sheet. Water quality verification in virtually all cases requires water testing and in some cases, requires that water samples be submitted, and for which the test results may take 4 weeks to receive. Non-compliance with manufacturer water quality specifications can cause irreparable damage to the equipment and / or its components and will VOID the original manufacturer's warranty. Water treatment solutions shown on this page and in the pricelist are offered for purchasing convenience only and can be selected only if the incoming water quality falls within the water treatment manufacturer's selection
