Requirements for the Government Unlimited Rate Plan with Subsidy Allowance and First Responder Government Rate Plan with Subsidy Allowance - Smartphones & Tablets

- 1) For the Subsidy to be effective, Customer will activate a line of Service under its Master Account. Each line of Service must be activated and maintained for at least 24 months from the date of activation without any suspension or termination of any line of Service (the "Subsidy Term");
- 2) Each line of Service must remain active, without suspension, for a 90-day period following the activation ("Minimum Activations Period");
- 3) Each line of Service must be activated in accordance with the terms of the Agreement;
- 4) Each line of Service which is activated under the Master Account can only qualify once for a device subsidy during the Initial Term;
- 5) The subsidy cannot be combined with any other discounts, credits or promotional offers; and
- 6) Customer's account with T-Mobile must be in good standing to receive the subsidy.

Minimum Activation Period/Termination.

If any line of Service that received a Subsidy or any other future credit that T-Mobile may agree to provide to Customer is terminated prior to the end of the Subsidy Term, then Customer agrees to pay or reimburse T-Mobile the pro rata portion of the Subsidy that has been credited by T-Mobile to the Customer for each terminated line of Service (for purposes of illustration only, if Customer terminates the applicable line 12 months following activation, and if T-Mobile has issued a subsidy of \$150 for such line, then Customer will reimburse T-Mobile \$75 (i.e. 50% [12/24 months] X \$150) for such terminated line). Customer may either (i) pay T-Mobile the aggregate amount of issued subsidy for terminated lines of Service which are terminated before the end of the Subsidy Term within 30 days of termination of the affected lines of Service; or (ii) T-Mobile may charge Customer for the Activation Credits issued for each terminated lines of Service and Customer agrees to pay T-Mobile for the Subsidy issued to Customer for the terminated lines within 30 days of issuance of notice by T-Mobile.

- Customer agrees that it cannot change or move the lines of Service with a Device Discount/Subsidy to a rate plan with a different or lower Rate Plan during the Device Discount/Subsidy Term and if it does, Customer will reimburse T-Mobile for a pro rata portion of the Device Discount/Subsidy received for each month remaining in the Device Discount/Subsidy Term.

Customers will be required to sign a Hitachi Smart Video Analytics (SVA) Addendum to purchase SVA services. Monthly Recurring Charge(s) ("MRC") and setup charges do not include taxes, fees, or surcharges. SmartVideo Analytics is not FedRAMP authorized.

SmartVideo Analytics Early Termination Fees. Use of the SVA Solutions is subject to a minimum number of months for each SVA Solutions license subscription ("License"), as indicated in the table above ("**Minimum Service Term**"). Customer is responsible for payment of all charges for the duration of the Minimum Service Term regardless of whether Customer uses the SVA Solution for the entire Minimum Service Term or not. If any License is cancelled or terminated prior to the end of the Minimum Service Term, then Customer agrees to reimburse T-Mobile the pro-rata amount due for each month left remaining in the Minimum Service Term for such License. For purposes of illustration only, if Customer cancels a License in month 3 of a 12-month License subscription with an MRC of \$57, Customer will pay T-Mobile \$517 (plus any applicable, taxes, fees and surcharges) for repayment of the remaining 9 months of the Minimum Service Term, shown as $9 \times \$57 = \512 . T-Mobile will charge Customer the repayment amount of the License for each subscription license terminated on Customer's monthly bill, within 2 billing cycles of such effective date of termination.
