Description of Services		Consideration		Evaluation and Metrics					
To provide a comprehensive digital school management platform across 7 sites. The MINGA Bundle Premium includes modules for Hall Pass, Check-In, and Behavior tracking, along with 50,000 SMS messages and premium support, which features guided implementation, annual virtual teacher training, quarterly data reviews, and strategic advisory sessions. This system supports safe, efficient campus operations and enhances student accountability and communication.		Teachers and administrators use MINGA to safely communicate with students through the monitored platform and create and monitor student hall passes, tardies, and detentions. Students use MINGA to create hall passes, view tardies and assigned detentions, and access their digital student ID. Prior Board Approval(s): August 13, 2025		4,795 staff actively using the platform (logins, module usage) <ul style="list-style-type: none"> • 33,100 Number of hall passes issued • 561 Volume of behavior incidents logged (compared to previous systems)

Description of Services		Consideration		Evaluation and Metrics					
K-12 Service Management Platform Incident IQ is a unified K-12 service management platform designed to streamline and integrate Facilities Management, IT Help Desk/Repairs, and Event Management into a single system. The platform replaced existing standalone systems, improving workflow automation, resource management, and cross-department collaboration, while providing enhanced ticketing, reporting, and self-service capabilities for staff and students. The initial implementation included the Event Management, Facilities Management, and IT Help Desk modules.		SRCS previously relied on multiple independent systems to manage facilities, IT support, event scheduling, and other business services, resulting in siloed workflows, limited integration, and operational inefficiencies. Following one year of implementing Incident IQ, SRCS experienced significant improvements in workflow coordination, service transparency, response times, and cross-department collaboration. However, SRCS determined that the EventIQ module was not sustainable because its fee collection process relied on district staff to pursue outstanding payments; as a result, SRCS began investigating alternative event management solutions that offload payment collection and financial accountability to a third-party provider. This quote reflects only the renewal of the IT Help Desk and Facilities Management modules. The replacement of EventIQ module will be brought to the board for approval as a new solution is determined. Prior Board Approval(s): January 8, 2025		Number of tickets resolved per time period. Time to complete tickets. Contract Type New Renewal Addendum

Description of Services	Consideration	Evaluation and Metrics						
Google Workspace for Education Plus Google Workspace for Education Plus provides the district's foundational digital infrastructure, combining secure communication and classroom management tools for staff and students with premium instructional features, administrative data analytics, and advanced IT security forensics.	Renewing this premium tier for the 2026/27 school year ensures continuous data privacy, improved business efficiency, and elevated student tools: Student & Instructional Benefits: Enhances classroom engagement and equity through interactive assignment tools, native writing and citation checkers, and multimedia project features that support diverse learning needs and student independence. Business & Operational Efficiency: Streamlines daily administrative tasks and staff workflows by providing secure, policy-compliant AI assistants for lesson planning and communication, alongside comprehensive data analytics to track district-wide academic progress. Cybersecurity & Forensic Investigation: Provides robust network defense by automatically filtering sophisticated phishing and spam threats, while equipping the IT team with powerful forensic tools to instantly detect, track, and contain digital security risks. Prior Board Approval(s): 09/10/2025	Students and staff gain timely access to instructional material and are able to communicate and work collaboratively. Contract Type

Description of Services	Consideration	Evaluation and Metrics						
ClassLink enables SRCS to manage student and staff access to online instructional resources via Single Sign On and manage licenses assignments based on rostering provided from the School Information System (Aeries). Classlink also provides analytics for the usage of online resources to enable financial decisions for renewals. Starting 2024 Classlink also enabled MFA for all SRCS staff.	Renewing ClassLink for the 2026/27 school year maintains essential instructional access, data-driven financial oversight, and network security compliance across the district: Student & Instructional Benefits: Simplifies the digital learning environment by allowing students and teachers to instantly access all online instructional software, digital applications, and learning platforms through a single, unified dashboard. Business & Operational Efficiency: Automates student account provisioning and software license assignments based on daily enrollment changes, while providing comprehensive usage analytics that allow the district to eliminate underutilized software and optimize renewal budgets. Cybersecurity & Forensic Investigation: Protects sensitive student and staff data records by enforcing secure, centralized authentication protocols, including mandatory Multi-Factor Authentication (MFA) across district personnel to prevent unauthorized access. Prior Board Approval(s): 08/27/2025	Students and staff gain timely access to instructional material. SRCS meets & maintains licensing requirements with different vendors supported via ClassLink. Description of Services		Consideration	Evaluation and Metrics						
Imagine Learning provides the Edgenuity platform for online learning. Courses are selected by teachers, meet A-G requirements, and provide our Independent Study Program with a high-quality curriculum option for students in independent study, and provides students with the option to do virtual learning.		This is a renewal from the 2025/26 school year. The number of students who are provided access will increase, because we are increasing the number of students in Independent Study. The focus of this platform's use is to provide quality instructional options for students in ISP. Prior Board Approval(s): August 13, 2025	During the 2024/25 school year 135 students enrolled in a total of 356 courses through Edgenuity with the average grade of 83% in a course. Students spent an average of over 37 hours completing course work in Edgenuity, and students completed courses 67% of the time. With the increase in usage of the platform as a curriculum for students and teachers in Independent Study, we expect these numbers to continue to increase in the 2026/27 school year as they did in the 2025/26 school year.

Description of Services		Consideration	Evaluation and Metrics						
Consultant will make determination of the District's State School Facility Program (SFP) New Construction Eligibility and assist SRCS in applying for modernization funding reimbursements from the state.		King Consulting is an established and recognized school facility planning firm. With a wide array of services, King Consulting assists school districts across California with their school planning needs and funding opportunities. This renewal is to provide an additional 800 hours, with a not-to-exceed cost of \$180,000, for the professional consulting services agreement that was originally Board approved on 10/26/2022, and is updated each year. This renewal will provide the hours needed for the next year to prepare and obtain the necessary State agency approvals to prepare and submit State Modernization Funding Applications. At the end of each contract year, the purchase order for any unused hours is closed and a renewal is provided for the next year. When reimbursement funding is received, it must be reinvested in district facilities, unless the original project was funded from general fund dollars. Prior Board Approval(s): September 24, 2025 & May 27, 2026	To date, King has helped identify over \$73 million dollars combined for our elementary and high school districts for potential state funding. Their continued work will help SRCS gain additional funding in the upcoming years. The reimbursed funds may be used to repair, maintain, or upgrade district facilities.

Description of Services		Consideration	Evaluation and Metrics						
<p>Microsoft Staff M365 Licenses SoftChoice replaces LiftForward as our provider for Microsoft subscriptions following LiftForward's acquisition by another company.</p> <p>SoftChoice is a Microsoft-recommended provider for Microsoft subscriptions through the CAMSA piggyback agreement.</p> <p>The CITE Microsoft Strategic Alliance (CAMSA) provides a California statewide contract for the Microsoft Educational Enrollment Solution (EES) program, serving as a master purchasing vehicle for California K–12 educational institutions. This agreement offers significant discounts and streamlines the Microsoft licensing procurement process through competitive pricing, service, and support.</p> <p>The attached quote reflects the renewal of 315 Microsoft 365 A3 licenses at Education Faculty pricing.</p>		<p>Microsoft Office is an important business productivity suite used by most faculty and staff at SRCS. Most staff use the free online MS Office (M365 A1 license) applications but many administrators and clerical staff need to download and use the full desktop MS Office (Office 365 A3 license) suite. The full desktop version of MS Office offers a richer end-user experience supporting more advanced needs.</p> <p>This proposal renews the new Office M365 A3 license for 315 staff to allow them continued access to the desktop MS Office suite. More licenses may be added over time as needs are identified.</p> <p>Prior Board Approval(s): June 25, 2025 (Different vendor: LiftForward)</p>	End-user experience and feedback.
