

CHRONOLOGY OF THE AGENDA ITEM

Mobile Modular Management Corporation submitted a quotation for the lease and installation of (2) 10-classroom modular buildings to accommodate temporary classroom needs in support of the E-SPLOST V construction project at Salem Middle School.

At its business meeting on Monday, October 16, 2023, the DeKalb Board of Education approved the installation of the units at Salem Middle School. However, the Board Agenda Item did not include the sum of the monthly lease payments in the total amount approved nor did it include a necessary budget reallocation from Program Contingency to fund the installation of the portable classroom units.

This agenda item seeks Board of Education approval of the modification to the October 2023 Agenda Item to include a total amount for the month-to-month lease of the portable classroom units and to approve a budget reallocation from Program Contingency to the E-SPLOST V construction project at Salem Middle School.
