

CHRONOLOGY OF THE AGENDA ITEM

At its meeting on April 18, 2022, the Board voted to construct a new middle school and high school at the site of the existing Sequoyah Middle School at 3456 Aztec Road.

The Georgia Department of Education requires that properties to be used for new or replacement school facilities undergo a site approval process. The site approval process includes an assessment of environmental conditions and risks in the areas surrounding the property.

Submission of this site approval package allows the GaDOE to conduct its review of the site for adequacy as a site for an instructional facility, fulfilling the state's requirements.
