

CHRONOLOGY OF THE AGENDA ITEM

The district will be taking advantage of a previously negotiated statewide contract with Grainger. The vendor will provide on-site services for the facilities maintenance department. The vendor will be able to provide material at a 98% rate due to the vast logistics of this national company. Award of this contract will increase parts availability, reduce customer wait-time, and reduce funds spent on stock. The contract has 2 renewal years that can be extended until 2026.
