

CHRONOLOGY OF THE AGENDA ITEM

The Operations Division was approached for an easement request from the DeKalb County Government at the Columbia Middle School Site off Columbia Drive. The purpose of this project is both the installation of sewer pipelines and their ongoing inspection and maintenance on and around Columbia MS. Upgrading the sewer lines will help prevent damage to sewers.

It is requested that the Board of Education approve the easement to DeKalb County to secure equipment and distribution lines at the Columbia Middle School site.
