Shared Services/RESAs – Guidelines

The Superintendent has authorized the following guidelines regarding the Bibb County School District (“District”) participating in and receiving assistance from the RESA region responsible for serving the District.

1. District staff will participate fully in any Middle Georgia RESA (“MGRESA”) trainings or programs that are offered.
2. To the maximum extent possible, the District will utilize MGRESA services and programs before creating one of its own.
3. When MGRESA publishes reports of program utilization, the District will determine if it is gaining the maximum benefit offered.
4. Each fiscal year, the Chief Financial Officer will conduct a cost analysis of the District’s participation in MGRESA programs and report the results to the Senior Cabinet.
