

CHRONOLOGY OF THE AGENDA ITEM

The construction project at the Laurel Ridge ES site is nearing completion of an HVAC renovation. GA Power is requesting the right to install and maintain electronic equipment and lines within the Easement area. The easement request allows GA Power to provide power to the facility for operational use. The electric and communication lines are to be installed for the improvement of services to the facility. The renovations may include updates to transformers, poles, wires, and other necessary fixtures and appliances.
