

BOARD POLICY
Local School Councils

Descriptor Term: BBFA
Date: XXXXXX XX, 2024

Local School Councils

Each school in the school system will have a local council which meets the requirements of state law and operates pursuant to its adopted by-laws. The school councils will be advisory bodies only and provide advice, recommendations, and reports to the school principal and, where appropriate, to the Board and Superintendent or his or her designee on matters pertaining to student achievement and school improvement.

When a vacancy occurs in the position of school principal, the Superintendent or his or her designee may consult with the school council, as the Superintendent or his or her designee deems appropriate, to assist in making a recommendation to the Board. A vacancy occurs in the position of school principal when the position is to be filled from applications submitted to the district, not from a reassignment of current personnel.

The provisions of this policy will not apply to a governance council of any charter school of the Bibb County School District.
