

Chronology of SecureIT Initiative

The following chronology outlines the district’s engagement with providing security services:

Three-Year Spend:

Year	BOE Approval	Amount Spent
2021 – 2022	\$2,200,000.00	\$1,430,759.84
2022 - 2023	\$1,872,080.00	\$1,658,529.88
2023 - 2024	\$2,372,080.00	\$2,348,879.26
2024 - 2025	\$ 2,464,894.85 (requested)	

To effectively safeguard sensitive student and staff data, a K-12 school district must invest in robust security measures. The district has committed to investing in:

- Measures to monitor network traffic, detect anomalies, and respond promptly to security incidents;
- Measures to secure cloud-based services with encryption and multi-factor authentication which are crucial to safeguarding sensitive data; and
- Third-Party Expertise ensures that security initiatives align with the district's overall strategy and provide guidance and support.

These investments in security will help protect the district's digital assets and maintain operational continuity.

Please be advised that this item was intentionally redacted to protect the school district's security posture.
