

CHRONOLOGY OF THE AGENDA ITEM
Easement -
Panola Way Elementary School

The Operations Division was approached for an easement request from Georgia Power at the Panola Way Elementary School Site off Panola Way Court. The purpose of this project is to secure the electric transmission and/or distribution lines and/or communication lines which service Panola Way ES. Removing trees or other obstructions in the area will help secure equipment and services.

It is requested that the Board of Education approve the easement to Georgia Power to secure equipment and distribution lines at the Panola Way Elementary School site.
