

# Chronology of Device Purchases

The district is committed to providing the necessary technology tools for schools and teachers to facilitate a learning environment and departments to conduct its operating business. All requests for assistance are vetted and reviewed by the district.

The following chronology for the past three years outlines the district’s intentional investment in services and equipment used to facilitate learning:

Year	BOE Approval	Amount Spent
2021 – 2022	\$11,000,000	\$6,969,944
2022 - 2023	\$9,920,000	\$5,008,281
2023 - 2024	\$9,920,000	\$6,418,245
2024 - 2025	\$3,381,087.40 (requested)	

The past three-year average spend with each vendor is as follows:

Vendor	Spend Amount
Apple Computer, Inc.	\$532,705
CDW-G	\$4,812,992
Virtucom	\$4,668,590

The goal is to ensure the district is positioned to provide equitable access to connectivity beyond our physical learning environment.

Acquiring technology devices is not simply an expense but a critical investment in ensuring equitable access to education in the modern age. Hybrid and virtual learning models, alongside digital content, are increasingly central to the educational experience. A lack of access to appropriate technology devices can create significant barriers to student success, widening the achievement gap. By establishing a systematic procurement system, we ensure that every student, regardless of their socioeconomic background, has the tools to connect with teachers and fully participate in their education. By providing students with the necessary devices, accessories, and components, we empower them to engage with digital content, connect with teachers, and ultimately achieve their full academic potential.
