Scheduling for Instruction

The Bibb County Board of Education ("Board") believes that public education is enhanced when instructional time provided for students is not interrupted by non-instructional activities. The Board requires that all students be scheduled for the minimum amount of time required for full-time status at each grade level as set forth by the State Board of Education. However, the Board recognizes that extenuating circumstances may cause the student's school day to be less than full-time. The Board authorizes the Superintendent or his or her designee to develop a regulation addressing the schedule for instruction and any exceptions to the schedule.
