The Bibb County Board of Education ("Board") recognizes that the participation of parents and community members in the activities of schools is a key contributor to student success. The Bibb County School District ("District") welcomes parents and other visitors to the schools and school-sponsored activities or events at the principal's discretion and provided that the visits are not detrimental to the instructional program, schools-sponsored activities or events.

The District's highest priority is to provide a safe, secure and orderly educational environment. When visiting schools during the school day, visitors will report to the school office first. The Board authorizes the Superintendent or his or her designee to develop regulations addressing visitors in schools and at school-sponsored activities or events.
