To whom it may concern,

As a Foundation board, we are requesting to provide a donation of funds for Professional Learning from “Solutions Tree: PLC at Work” for the core team at Austin Elementary School.

The donation will enable staff participation in the PLC at Work Institute, which will enhance the core team’s ability to implement and sustain high-performing Professional Learning Communities (PLCs). This training will not only foster a collaborative culture focused on continuous improvement and improved student outcomes for attendees, but for the entire staff at Austin Elementary. This information will be a core focus of the 2025-2026 school year.

Thank you for your consideration of our donation request. We look forward to seeing the direct impacts it has on our student body in the upcoming school year.

Best,

Kathryn Olive
