

Board Policy IFCD: School Volunteers

Status: ADOPTED

Original Adopted Date: 03/18/2021 | Last Reviewed Date: 03/18/2021

The Board of Public Education for Bibb County ("Board") supports community engagement that provides for the growth of student achievement both academically and socially. The Board understands the benefits of a shared responsibility with the community for student development and the value community partnerships bring in support of a positive learning environment.

Community engagement is encouraged through the use of volunteers who may donate their time, services, and resources. Volunteer programs and opportunities will align with the goals and mission of the Bibb County School District ("District"). The District will promote volunteer opportunities in the schools and departments. Student and staff safety and the protection of Board property will be maintained through a screening process and the appropriate use of volunteers.

The Superintendent or designee is authorized to develop a regulation and guidelines for volunteers to meet the goals and objectives outlined in this policy.
