ACTION MEMORANDUM

To: Bibb County Board Education, Dr. Dan A. Sims, Superintendent

From: Kevin Adams, Chief Information Officer

Subject: FY 26 Annual Renewal of VIEWpath and EPIC Upgrades

Summary

The Technology Services Division is seeking Board approval for the annual renewal of Audio Enhancement VIEWpath software subscriptions for all instructional classrooms for the 2025-2026 school year. In addition, this approval would allow us to move forward with upgrades to our Audio Enhancement EPIC system.

Background

In July 2020, the Bibb County Board of Education authorized the School District to upgrade the classroom camera/audio and intercom systems. The Audio Enhancement VIEWpath software allows teachers to record their lessons for multiple purposes: provides all teachers the opportunity to upload classroom recordings of the instructional session and post them into the District's Learning Management System (Canvas) for students and parents to review 24/7/365; provides academic coaches and administrators at all schools the opportunity to review teacher submitted videos to provide instructional feedback and coaching sessions; and allows common teacher teams to utilize these videos as exemplars while providing the highest level of collaboration. The quote is secured using Audio Enhancement as a sole source.

Beyond the above annual renewal, our EPIC (Educational Paging & Intercom Communications) infrastructure is due for upgrades to associate equipment that will impact the continued use of our Audio Enhancement products throughout the District.

Recommendation

It is recommended that the Bibb County Board of Education authorizes the purchase order to Audio Enhancement for the District's VIEWpath software licenses and EPIC school equipment in the amount not to exceed \$175,405.00. The funding source is FY26 General Funds.
