

Imagine Learning (Edgenuity)

For many years, we've used a program called Edgenuity from Imagine Learning to help students in grades 9-12 recover credits needed to get back on track for graduation. Additionally, Edgenuity provides instructional support for students enrolled in traditional face-to-face courses who need more assistance. We also use Edgenuity for initial credit for students who are missing courses, cannot fit required courses into their schedules, and transfer students in need of a personalized schedule to advance toward graduation. Lastly, Edgenuity is utilized by our virtual program at VIP Academy to provide elective credits, advanced course options, world languages, and other courses to students in grades 6-12.
