Dr. Ethel Lett, Assistant Superintendent of Teaching and Learning

Subject: Renewal of Imagine Learning - Edgenuity

Summary:

Imagine Learning's virtual platform, Edgenuity, is designed to meet the needs of the evolving classroom. It is implemented in-person and virtually within our high schools and the VIP Academy. It provides a robust selection of core, elective, and honors courses that can be completed for initial credit as well as credit recovery. The curriculum is grounded in research and based on the rigor and high expectations of Georgia's standards. Courses are created by teams of experienced educators and instructional designers with expertise in curriculum development, instructional technology, and content-area education.

Background:

For many years, we've used Edgenuity from Imagine Learning to help students in grades 9-12 recover credits needed to get back on track for graduation. Additionally, Edgenuity provides instructional support for students enrolled in traditional face-to-face courses who need more assistance. We also use Edgenuity for initial credit for students who are missing courses, cannot fit required courses into their schedules, and transfer students in need of a personalized schedule to advance toward graduation. Lastly, Edgenuity is utilized by our virtual program at VIP Academy to provide elective credits, advanced course options, world languages, and other courses to students in grades 6-12. For VIP Academy, electives and World Language courses are led by Edgenuity teachers.

A wide range of learning tasks, including independent reading, practice, guided online exploration, projects, and performance tasks help reinforce understanding. Formative, summative, and authentic assessments measure student mastery of the learning objectives and are provided by the program.
