

6/3/2025

To Whom It May Concern,

This letter is to certify that the Amira Reading Suite is a proprietary product available exclusively through Amira Learning, Inc. The Amira Reading Suite is the only fully integrated early literacy solution combining AI-powered assessment, differentiated instruction, and real-time tutoring in a closed-loop platform. No other vendor offers this breadth of functionality delivered through a single system.

Amira's unified Reading Suite includes three components:

- **Amira Assess** – A universal and dyslexia screener providing benchmark and continuous progress monitoring, validated for classification accuracy by the National Center on Intensive Intervention.
- **Amira Instruct** – A dynamic instructional engine delivering personalized micro-lessons, mastery-driven pathways, and curriculum-aligned assignments through its proprietary Mastery Achievement Score (MAST) and AI Lesson Planner.
- **Amira Tutor** – An AI-powered reading coach that listens to students read aloud, delivering just-in-time micro-interventions and high-dosage practice with voice interactivity and adaptive feedback.

Amira's unique capabilities include, but are not limited to:

- Ingestion and alignment of district curriculum (scope & sequence, texts, and resources).
- Automated generation of lesson plans and instructional recommendations based on real-time reading data.
- Integration of teacher reports with district instructional frameworks and scope and sequence.
- Bilingual support for both assessment and tutoring (English and Spanish).
- Comprehension dialogues customizable for up to 20 passages per district request.
- Seamless connection of assessment insights with instructional delivery and practice interventions.

Amira Learning is the sole source provider of the Amira Reading Suite. No third-party resellers or partners are authorized to distribute, support, or modify this software. Its proprietary speech recognition engine, reinforcement learning models, and AI-driven instructional algorithms are not licensed for use by any other vendor.

Should you have any questions regarding the unique nature of Amira's offerings or its sole source status, please feel free to contact us.

Sincerely,

Joe Siedlecki
