Subject: Policy JGFGB -Concussion Management **(First Reading)**

Summary

The District is presenting Policy JGFGB - Concussion Management for First Reading.

Background

Since the Board's last review of Policy JGFGB and Exhibit JGFGB-E(1) in November 2020, there have been no updates to the law governing the District's requirement to maintain a concussion management policy (O.C.G.A. § 20-2-324.1). Both the policy and the regulation still comply with the statutory requirements. However, we propose revisions to JGFGB-E(1) so that it mirrors the language in the Georgia High School Activities Association Student/Parent Concussion Awareness Form.

Next Step

The District will post Policy JGFGB on Simbli to receive input from the Board members and stakeholders for 30 days. The policy will be brought to the next board meeting for second reading and final Board acknowledgment.
