Operations Division – Sam A. Moss Service Center  
1780 Montreal Road Tucker, GA 30084

Re: Construction Management at Risk Group 2 Security Vestibules

Dear DeKalb County Board of Education, Mr. Fitzgerald Joseph.

**Lefko Development, Inc. (LEFKO)** is pleased to submit **Exhibit M** for the **Construction Management at Risk – Group 2 Security Vestibules project**. This submission is based on the contract documents dated Nov. 13<sup>th</sup>, 2024, and the bid process plan shared via email on May 7, 2025, and confirmed in OAC meetings.

**Your Project** Defining project expectations early on gives us the ability to take responsibility for the complete success of your project (cost, schedule, quality, and safety). Your project requires detailed planning and communication with all stakeholders to deliver on our **first-time quality** dedication and on-time delivery. Our team has thoroughly reviewed the project RFQ to fully understand the scope.

Over the years, we've completed many such projects. This experience allows us to develop site specific methodologies for **first-time quality**. Prime among these is our process to understand the Owner's needs and implement regular communication protocols to eliminate delays and meet project milestones.

**Well Versed** We are well versed in working within educational facilities and understand the nature of safety and security for students, professionals, and administrators. LEFKO has completed numerous projects for the educational systems of Cherokee, Dekalb, and Forsyth County Schools; Georgia State University, Georgia Tech, and Atlanta Technical College. **In the past few years our team has managed 18 projects for GSU, as well as three projects for Forsyth County Schools. We recently completed your \$2.5M project to renovate 10 security vestibules, and Cherokee County Schools Bus Washer Additions of \$3.6M. Our team is currently wrapping up some Cobb County Schools projects such as Nicholson ES Renovation of \$5.2M and Rose Garden HVAC Upgrades of \$2.5M.** Given our history of working in educational facilities within Georgia counties, cities, universities and schools, we are accustomed in working in areas populated by students. LEFKO places the highest of priorities on client relationships and communication. Our teams operate in an open collaborative environment ensuring constant communication. We are certain you will find our knowledge and experience to align with what Dekalb County values in their contractor services. We look forward to working with you again to improve the educational environment for your students and maintain excellence in Dekalb County schools.

Respectfully submitted,

Giuseppe Ceccarelli, Operations Manager

Lefko Development, Inc./dba Lefko Construction

**EXHIBIT M**

**GMP AMENDMENT TO AGREEMENT BETWEEN OWNER AND  
CONSTRUCTION CONTRACTOR**

**AMENDMENT NO. 1 TO AGREEMENT BETWEEN OWNER AND  
CONSTRUCTION CONTRACTOR FOR Chapel Hill MS G2 SV  
AGREEMENT NO. N/A**

Pursuant to Sections 4.B and 7.A of the Construction Management Agreement (“Agreement”), dated 11/13/2024, between The School Board of DeKalb County, Georgia (“Owner”) and LEFKO Development Inc. dba. LEFKO Construction (“Construction Contractor”), with respect to the construction of Owner’s Chapel Hill MS G2 SV (“Project”), Owner and Construction Contractor hereby agree to amend and modify the Agreement by this Amendment No. 1 and establish a Guaranteed Maximum Price and Contract Time for all the Work as set forth below. All capitalized terms not defined herein shall have the meaning ascribed to them in the Agreement, unless otherwise noted.

**ARTICLE 1**

**SCOPE OF WORK**

The scope of the Work consists of the construction of a safe, finished, and fully functioning security vestibule --, in accordance with the Agreement, this Amendment and the other Contract Documents listed as Attachments 1 through 6 below, which are hereby incorporated into and made a part of the Amendment by this reference:

<b><u>Attachment No.</u></b>	<b><u>Description</u></b>	<b><u>Pages</u></b>	<b><u>Date</u></b>
List of Drawings, Specifications and Addendums			
1.	Allowances	<u>11</u> through <u>11</u>	<u>06/25/25</u>
2.	Assumptions and Clarifications	<u>12</u> through <u>17</u>	<u>06/25/25</u>
3.	Completion Schedule	<u>18</u> through <u>23</u>	<u>06/25/25</u>
4.	Schedule of Values	<u>24</u> through <u>24</u>	<u>06/25/25</u>
5.	List of Itemized General Conditions	<u>25</u> through <u>25</u>	<u>06/25/25</u>
6.	List of Subcontractors and Major Suppliers	<u>26</u> through <u>26</u>	<u>06/25/25</u>
7.	Alternates	<u>--</u> through <u>--</u>	<u>N/A</u>

## ARTICLE 2

### GUARANTEED MAXIMUM PRICE

2.1 Construction Contractor's Guaranteed Maximum Price ("GMP") for the Work, including the estimated Cost of the Work as defined in Section 5 of the Agreement and the Construction Management Fee as defined in Section 4 of the Agreement, is Seven hundred thirteen thousand two hundred sixty six with 45/100 (\$ 713,266.45-- ).

2.2 The Construction Management Fee for the entire Work anticipated on this Project is hereby established as a lump sum amount of Fifty nine thousand four hundred thirty eight with 87/100 (\$ 59,438.87-- ), said lump sum amount is included within the above noted GMP.

2.3 The general condition expenses for the entire Work anticipated on this Project are hereby established as a lump sum amount of One hundred thirteen thousand two hundred four with 50/100 (\$ 113,204.50-- ), said lump sum amount is included within the above noted GMP ("General Conditions Expenses"). The items included as General Condition Expenses are listed in the List of Itemized General Conditions attached hereto and incorporated herein as Attachment No. -5-. Except as said lump sum amount for General Condition Expenses may be expressly adjusted by Change Order or Construction Change Directive, Construction Contractor acknowledges and agrees that Owner shall have no liability for any General Condition expenses beyond payment of the above noted lump sum amount and Construction Contractor agrees that it shall not be entitled to receive any additional compensation from Owner for the General Conditions beyond the above lump sum amount. There shall be no additional General Conditions Expenses payable to Construction Contractor on the first Five Hundred Thousand and No/100 Dollars (\$500,000.00) of Change Order or Construction Change Directive Work (i.e. the lump sum amount specified in this Subsection includes consideration for up to \$500,000.00 of Change Order and/or Construction Change Directive Work). Further, there shall be no mark-up for a subcontractor's General Conditions expenses on the first One Hundred Thousand and No/100 Dollars (\$100,000.00) of Change Order and Construction Change Directive Work to be performed by such subcontractor.

2.4 Monthly installment payment of the Construction Management Fee and the General Condition Expenses shall be based upon the percent completion of the designated portion of the Work for each particular month.

2.5 In order to efficiently and timely address any unknown or unanticipated conditions that are within the scope of the Work and are otherwise reimbursable without duplication as a Cost of the Work, but excluding all items that are to be reimbursed under the lump sum General Condition expense amount noted in Subsection 2.4 above, the parties have agreed to establish a contingency within the GMP in an amount not-to-exceed amount of Twenty nine thousand seven hundred nineteen and 44/100 Dollars (\$ 29,719.44-- ) ("**Owner's Contingency**"). Owner's Contingency funds shall be used to cover costs that may result from incomplete design and unanticipated costs that arise during construction that are not identified by the construction documents. Construction

Contractor shall not proceed with any portion of the Work which it intends to charge against the Owner's Contingency without first obtaining Owner's express written authorization to proceed. Construction Contractor acknowledges and agrees that any portion of the Work which is to be charged against the Owner's Contingency that does not receive such prior written approval from Owner shall be deemed to be part of Construction Contractor's Work compensated within the GMP and not chargeable against Owner's Contingency. Owner reserves the right, at its sole discretion, to withhold its consent on Owner's Contingency expenditures. Further, the work that is the subject of any Owner's Contingency expenditures shall be deemed part of the Work. The GMP shall be reduced by unused Owner's Contingency remaining at the completion of the Work. Construction Contractor has no entitlement to any portion of any unused Owner's Contingency.

2.6 In order to efficiently and timely address any unknown or unanticipated conditions that are within the scope of the Work and are otherwise reimbursable without duplication as a Cost of the Work, but excluding all items that are to be reimbursed under the lump sum General Condition expense amount noted in Subsection 2.4 above, the parties have agreed to establish a contingency within the GMP in an amount not-to-exceed <sup>Twenty nine thousand seven</sup> ~~hundred nineteen~~ and 44 /100 Dollars (\$29,719.44) ("**Contractor's Contingency**"). Construction Contractor shall not proceed with any portion of the Work which it intends to charge against the Contractor's Contingency without first obtaining Owner's express written authorization to proceed. Construction Contractor acknowledges and agrees that any portion of Work which is to be charged against the Contractor's Contingency that does not receive such prior written approval from Owner shall be deemed to be part of Construction Contractor's Work compensated within the GMP and not chargeable against Contractor's Contingency. Owner reserves the right, at its sole discretion, to withhold its consent on Contractor's Contingency expenditures. Further, the work that is the subject of any Owner's Contingency expenditures shall be deemed part of the Work. The GMP shall be reduced by unused Contractor's Contingency remaining at the completion of the Work. Construction Contractor has no entitlement to any portion of any unused Contractor's Contingency. Construction Contractor shall be entitled to an increase in the Construction Management Fee in the amount of 10.00 % of the Cost of the Work charged against the Contractor's Contingency.

2.7 The parties have agreed to establish an allowance within the GMP for Patching of existing finishes, and unforeseen conditions in the amount of <sup>Eleven thousand seven</sup> ~~hundred fifty~~ and 00/100 Dollars (\$11,750.00--). Construction Contractor shall not proceed with any portion of the Work associated with the aforesaid allowance ("**Allowance Work**") without first obtaining Owner's express written authorization to proceed with said Allowance Work. Allowance Amounts are reflected in Attachments -1- through. Unless otherwise provided in the Contract Documents: (a) allowances amounts shall cover the cost to Construction Contractor of materials and equipment delivered at the site and all required taxes, less applicable trade discounts; (b) Construction Contractor's costs for unloading and handling at the site, labor, installation costs, overhead, profit and other expenses contemplated for stated allowance amounts shall be included in the GMP but not in the allowances, unless otherwise stated in the allowance; and (c) whenever costs are more than or less than allowances, the GMP shall be adjusted accordingly by Change Order.

2.8 Pursuant to Subsection 12.3 of Exhibit A to the Agreement, if at the time final payment is made to Construction Contractor the total Cost of the Work has been increased by approved Change Orders in an amount causing the original GMP as set forth in this Amendment to be exceeded by more than zero and 00/100 Dollars (\$0.00--), then Construction Contractor shall be entitled to an increase in the Construction Management Fee in the amount of and /100 Dollars (7.50%) of the amount exceeding the sum of zero and 00/100 Dollars (\$0.00--) plus that original GMP amount.

2.9 Construction Contractor recognizes that the Contract includes work for trench excavation in excess of five feet deep. Construction Contractor acknowledges the requirements set forth by all federal, state, and local requirements. Construction Contractor certifies that the required trench safety standards will be in effect during the period of construction of the Project and Construction Contractor agrees to comply with all such required trench safety standards.

2.10.1 The amount of N/A and -- /100 Dollars (\$ N/A) has been separately identified for the cost of compliance with the required trench safety standards; said amount is included within the GMP.

2.10 At the completion of the Work, should the actual amount of "General Requirements" expenses be less than the amount included therefor in the Schedule of Values approved by Owner, the resulting "savings" shall accrue to the benefit of Owner and a deductive Change Order or Construction Change Directive shall be issued reducing the GMP by the amount of such savings. For the avoidance of doubt, any savings obtained General Requirements expenses may not be moved to contingency or be used to offset cost overruns in other items within the GMP. Further, the line item for General Requirements expenses in the Schedule of Values constitutes a separate guaranteed maximum price for such expenses and any overruns in General Requirements expenses shall be borne by Construction Contractor without reimbursement from Owner.

2.11 By executing this Amendment and furnishing Owner with a GMP based on a detailed Schedule of Values and a Master Project Schedule, Construction Contractor represents and warrants that the Contract Documents, including the Construction Documents, as well as other materials, and information furnished Construction Contractor as of the date of this Amendment have described the scope, construction requirements, and design intent of the Work in detail sufficient to enable Construction Contractor to establish firmly the GMP, Contract Time and the Project Schedule. To the extent that the Construction Documents are anticipated to require further development, Construction Contractor has provided in the GMP for such further development consistent with the Contract Documents and reasonably inferable therefrom.

2.12 Savings will be computed as of the date of final completion of the Work and shall consist of the difference between (i) the Guaranteed Maximum Price (as it may be adjusted in accordance with the terms of the Contract Documents) and (ii) the total aggregate sum of the Cost of the Work plus the Construction Management Fee paid by Owner shall accrue to the sole benefit of Owner.

**ARTICLE 3**

**CONTRACT TIME**

3.1 The Construction Phase Commencement Date for the Work is \_\_\_\_\_. The total period of time beginning with the Construction Phase Commencement Date through the date required for Substantial Completion of the Work is \_\_\_\_\_ (\_\_\_\_\_) days ("**Contract Time**"). THE SUBSTANTIAL COMPLETION DATE IS THEREFORE ESTABLISHED AS \_\_\_\_\_.

3.2 Pursuant to the Agreement, the parties have established liquidated damage rates for reasons stated therein, which the parties acknowledge and agree apply to this Amendment and Construction Contractor's responsibility to substantially complete the Work within the Contract Time as stated herein and finally complete the Work within the time prescribed in the Contract. Accordingly, the liquidated damage rates established in the Agreement shall be assessed against Construction Contractor for each calendar day Construction Contractor fails to achieve Substantial Completion of the Work within the Contract Time or final completion of the Work within the time prescribed in the Contract.

**ARTICLE 4**

**MISCELLANEOUS**

4.1 Except as expressly modified herein, the terms and conditions of the Agreement remain unchanged. All terms not specifically defined herein shall have the meaning ascribed to them in the Agreement. In the event of a conflict between the terms of this Amendment and those of the Agreement, Owner and Construction Contractor agree that the terms of this Amendment shall prevail and control. This Amendment may be executed in counterparts, each of which shall be deemed to be an original, but all of which shall constitute one and the same instrument.

Also, changes per RFI responses have been incorporated in this Addendum 2 dated 05/02/2025. The following drawings have been revised in this addendum.

Montclair ES: E0.01, ED1.01, E2.01, E3.01, E4.10

Ronald E. McNair: AD1.00, A1.00, A1.10, A2.50, A3.10.

## RFIs

1. HVAC control and BAS
2. Removal of existing furniture and offices items
3. Safe Haven structural requirement
4. Shop drawings for Safety and Security Film
5. Millwork modifications
6. Mechanical drawings scope vrs Demolition Drawing Scope
7. Electrical Panels - Huntley Hills ES
8. IG-1T vs. 3/8" tempered glazing - max thickness
9. Film scope for R. McNair MS
10. Avondale MS Door Schedule Aluminum infills or Glazing Infills
11. Miller Grove MS Roofing Scope
12. Southeast Dekalb HS - Film Scope for Large Window
13. Concrete specs
14. Flooring scope
15. DCSD Principals' additional comments / changes
16. AWI certification

17. Missing details (11/A3.30 & 12/A3.30) for Peachtree MS
18. Hardware for Door 1101A in R. McNair MS
19. EMERGENCY LOAD/GENERATOR TRANSFER DEVICE detail at Monclair ES
20. Intercom approved vendor for DCSD Schools
21. Electrical Panel "B" for Montclair ES

## ATTACHMENT 1

### Allowances

#### CMAR – DCSD Group 2 Security Vestibules

##### ALLOWANCES (Included in base price)

- **Allowance no. 1** – Unforeseen conditions: CMU walls patching  
**Amount:** \$2,500.00
- **Allowance no. 2** – Temporarily close of new openings  
**Amount:** \$250.00
- **Allowance no. 3** – Sound attenuation batts and Compressed Mineral Wool  
**Amount:** \$500.00
- **Allowance no. 4** – Hollow metal frame installation  
**Amount:** N/A
- **Allowance no. 5** – Patch and repair floors not labeled on drawings as affected by Demolition  
**Amount:** \$3,500.00
- **Allowance no. 6** – Furnishing and Installation of toilet accessories  
**Amount:** N/A
- **Allowance no. 7** – Patch existing Stucco at entrances after storefront removal (if required)  
**Amount:** N/A
- **Allowance no. 8** – Chair railing and paneling to match existing below transaction window  
**Amount:** N/A
- **Allowance no. 9** – Unforeseen conditions: Sealants, and fire caulking for new wall penetrations  
**Amount:** \$5,000.00

## ATTACHMENT 4 Assumptions & Clarifications

### **CMAR – Group 2 Security Vestibules**

#### **DIV – 02 EXISTING CONDITIONS**

- It is assumed that all demolition areas are clearly identified and accessible as shown on the drawings.
- The owner will provide a location for placing dumpsters.
- This scope excludes any core drilling or relocation and adjustment of utilities.
- Asbestos abatement or the handling of any hazardous materials is not included, in the event that GC discovers/exposes any existing asbestos and/or lead contaminated produces or materials, GC will immediately notify the owner and architect.
- Demolition of any partitions, glazing, or items not explicitly identified on the drawings is excluded.
- Shoring and any shoring plans are excluded.
- DCSD shall provide secure and accessible temporary storage locations for all items removed.
- Disconnection and reconnection of all technology items (computers, printers, etc.) is excluded from the General Contractor's scope.
- Any roof work is excluded from this GMP.

#### **DIV – 03 CONCRETE**

- The design criteria, cast-in-place-concrete specs, and slab and foundation notes shown on drawing S1.00 at school Miller Grove MS apply to all schools with Concrete SOW per RFI #13.

#### **DIV – 04 MASONRY**

- Detail #8 “Typical Opening in Existing CMU Wall” and “Lintel Schedule for New Opening in Existing Wall” on drawing A0.50 is excluded from the scope of work, as it is not referenced in any floor plan or elevation throughout the architectural drawings.
- The concrete masonry specs shown on drawing S1.00 at school Miller Grove MS apply to all schools per RFI #13.

#### **DIV – 08 OPENING (GLAZING)**

- Break metal covers are made of aluminum to match framing.

- All new storefront frames to be clear anodized/aluminum finish. No special colors included.
- Spec section 085653 “Security window” calls for a 10-year special warranty against failure and deterioration of security windows. However, the current warranty available by the approved manufacturer is for 5 years. This is the maximum warranty period that can be provided under the current proposal according to the accepted manufacturer.
- Spec section 088000 “Glazing” calls for AGC Glass Energy Select 28 Clear. This product is no longer in production. The proposal includes Guardian SunGuard SNX 62/27 as a substitute, which is considered an equivalent.
- The use of 3/8” clear tempered glass on exterior openings does not meet the SHGC code for Georgia.
- Putty glaze is not a conventionally captured system, this GMP is based on using glazing tape and silicone for providing the exterior glazing bead at the perimeter of the glass units.
- There’s no guarantee new exterior sealant will fully bond to the existing surfaces. Each area will need to be checked on-site. If the building’s exterior (brick or other materials) hasn’t been properly sealed or maintained to manage water, extra prep work might be needed, which could lead to additional costs (Unforeseen conditions).
- This proposal only includes PE calculations for new storefronts and excludes delegated design or PE stamp on shop drawings.
- Installation of permanent cores is excluded. The contractor will coordinate with the Owner and hardware supplier to ensure proper timing and delivery of cores.
- Per the design assumptions noted on the drawings, existing glazing in doors and adjacent sidelites is indicated as ¼”. However, during site visits to multiple schools, contractors observed that the existing glazing appears to be 1”.
- The use of film on existing or new insulated glass units may void the typical 10-year warranty for hermetic seals.
- Mock-ups are excluded from this GMP.
- Per RFI #3, no repairs or modifications to wood windows are needed.
- This GMP is based on the assumption shown on drawings that existing glazing will be able to be removed from perimetral doors, sidelites and frames without causing any damage and that will accommodate new 3/8” glazing. New doors, sidelites and frames are not included, unless they are shown on drawings.
- Current lead-times: 14-16 weeks.

#### **DIV – 08 OPENING (FILM)**

- As the film installation will be completed in an active environment, minor dust particles may appear after the installation of the laminate as a result of airborne dust. These particles should be few and not significantly detract from clarity or aesthetics when looking through the glass at a distance of 6 feet.

- Ballistic Laminate installation includes the use of liquid sprayed from high pressure tanks. Any item which may sustain water damage and subsequently devalue such item, shall be relocated prior to installation.
- DCSD has already received, reviewed and approved samples and product demonstration for this level 2 BRLF. No additional samples or cut sheets will be provided.
- This GMP assumes, per RFI #3, that all existing windows, doors and sidelites receiving new level 2 BRLF, are structurally sound.
- Current lead-times: 6-8 weeks.

#### **DIV – 09 FINISHES (DRYWALL / ACT)**

- All ceilings and partitions not explicitly identified within the scope of demolition or new construction are assumed to be in good, sound condition, structurally stable, and not requiring any adjustments, repairs, or finishes as part of this project.
- The Guaranteed Maximum Price (GMP) for ceiling patching is strictly limited to the areas explicitly indicated and quantified on drawing AD1.00.
- All untagged partitions not specifically identified on drawings are assumed to be CMU (Concrete Masonry Unit) construction
- No temporary barrier installation such as dust partitions, construction barricades for separation of occupied areas is included in this GMP since not specifically detailed in drawings for specific areas.
- The GMP excludes the installation of Type B partitions for this school, based solely on the locations and configurations explicitly detailed on drawing A1.00.
- No specs section for ACT-1 and grid was provided. Therefore, GMP assumes 5/8 in x 2 ft x 2 ft Armstrong Dune 15/16 in Square Lay-In Panel / White.
- The steel angle kickers connected to existing steel structure requested at detail 5 on drawing A3.30 for the interior storefront were assumed to be 10'-0" length.
- The separation of steel angle kickers connected to existing steel structure requested at detail 5 on drawing A3.30 for the interior storefront was assumed to be 4'-0" on center.
- The placing of the reference tag to detail 5/A3.30 on elevation 3/A3.10 was assumed to be incorrect since it was the only school in which that discrepancy was observed. Therefore, the steel angles were assumed to be running along the length, only horizontally, of the interior storefront.
- Existing structural steel to which the steel angle kickers are connected to was assumed to be accessible for welded connections. Welded connections were assumed to be acceptable.
- PE Stamps are excluded.
- GMP excludes shoring or temporary bracing.

### **DIV – 09 FINISHES (FLOORING)**

- Specs section 096519 “Resilient Tile Flooring” states that BOD product for VCT is by Congoleum Corporation, Johnsonite or Mannington Mills, 12x12. However, drawings call for Armstrong products. GMP is based on Armstrong 12x12 VCT as shown on drawings.
- Specs section 096813 “Tile Carpeting” states that BOD product for carpet is by Bentley Mills, Interface, Mannington Commercial, Mohawk Carpet, or Tarkett USA, 24x24”. However, drawings call for Shaw products. GMP is based on Shaw 24x24” carpet tile as shown on drawings.
- No floor tag was provided for the existing conditions of this school. Therefore, patches were quoted based on allowance no. 5 to match existing.
- No moisture testing is included.

### **DIV – 09 FINISHES (PAINTING)**

- Painting scope is limited to the areas explicitly listed on the drawings.
- Access to all painting areas will be provided without obstruction or the need for special equipment.
- No specialty coatings or high-performance systems are required unless specified.
- Painting of any additional areas or surfaces not identified is not included.
- Concealed or inaccessible surfaces are not part of the painting scope unless otherwise noted.
- Painting of perimetral doors, frames or sidelites is not included.

### **DIV – 21 FIRE SUPPRESSION (SPRINKLERS)**

- It is assumed that the existing sprinkler system is in good working condition and compatible with proposed modifications.
- Water supply will be available, with shut-off coordination managed by others.
- Final testing and inspection will be scheduled with adequate notice and cooperation from all parties.
- Modifications to existing sprinkler systems, not shown on the drawings, are excluded.
- Fire watch services or temporary fire protection measures required during system shutdowns are excluded.

### **DIV – 21 FIRE SUPPRESSION (FIRE ALARM)**

- No fire alarm scope is included in this GMP.

### **DIV – 23 HVAC**

- Any duct cleaning or work on existing to remaining equipment or duct, not shown on drawings, are excluded.
- Any new equipment not shown on mechanical drawings is excluded.
- DDC system included by DCSD approved vendor Control Concepts.

### **DIV – 26 ELECTRICAL**

- No electrical trenching, compaction, backfill, directional boring and coring for electrical work is expected.
- It is assumed that all new conduits will be surface mounted.

### **DIV – 27 LOW VOLTAGE**

- Permits and associated fees are excluded.
- Customer to provide static IP addresses and network connections at panel locations.
- Customer to provide a secured staging & storage area for project-related materials.
- It is assumed that electronic AutoCAD files are available from customer for Lefko's subcontractors usage in creating submittal drawings.
- Any and all interfacing to other equipment unless specifically noted is excluded.
- Servers and workstations hardware and Microsoft operating system are excluded.
- This GMP is based on DCSD approved LV vendors' quote. No information related to manufacturers, models, or brands was provided either on drawings or specs.

### **GENERAL**

- GMP may be subject to adjustment in the event of significant market volatility or the implementation of new tariffs that materially impact labor or material costs that cannot be covered by the Contractor's Contingency.
- This GMP and preliminary schedule is based on placed orders provided by the time of the proposal submission; accurate lead times and estimated delivery dates can only be provided once submittals are approved and orders placed. Lefko will constantly follow up and provide updates regarding this matter.
- All permit fees for this project will be waived by DeKalb County School District.
- Any special inspections will be performed by Owner's contracted third-party Inspector.
- No signage work is included in this GMP, since it was not listed in the drawings or specs.
- P&P Bond will be provided per school basis.
- The warranty period will commence once the substantial completion has been achieved for this project/contract.

- Construction contractor's fee associated to any portion of the Work which it intends to charge against the Owner's Contingency will be reviewed and included by the time the change order or PCO is submitted for review and approval.
- The commencement date of the construction phase and the substantial completion date are contingent upon the approval of this GMP and the issuance of the Notice to Proceed. Therefore, Article No. 3 of Exhibit "M" remains blank at this time.

## **ATTACHMENT 3** **Completion Schedule**

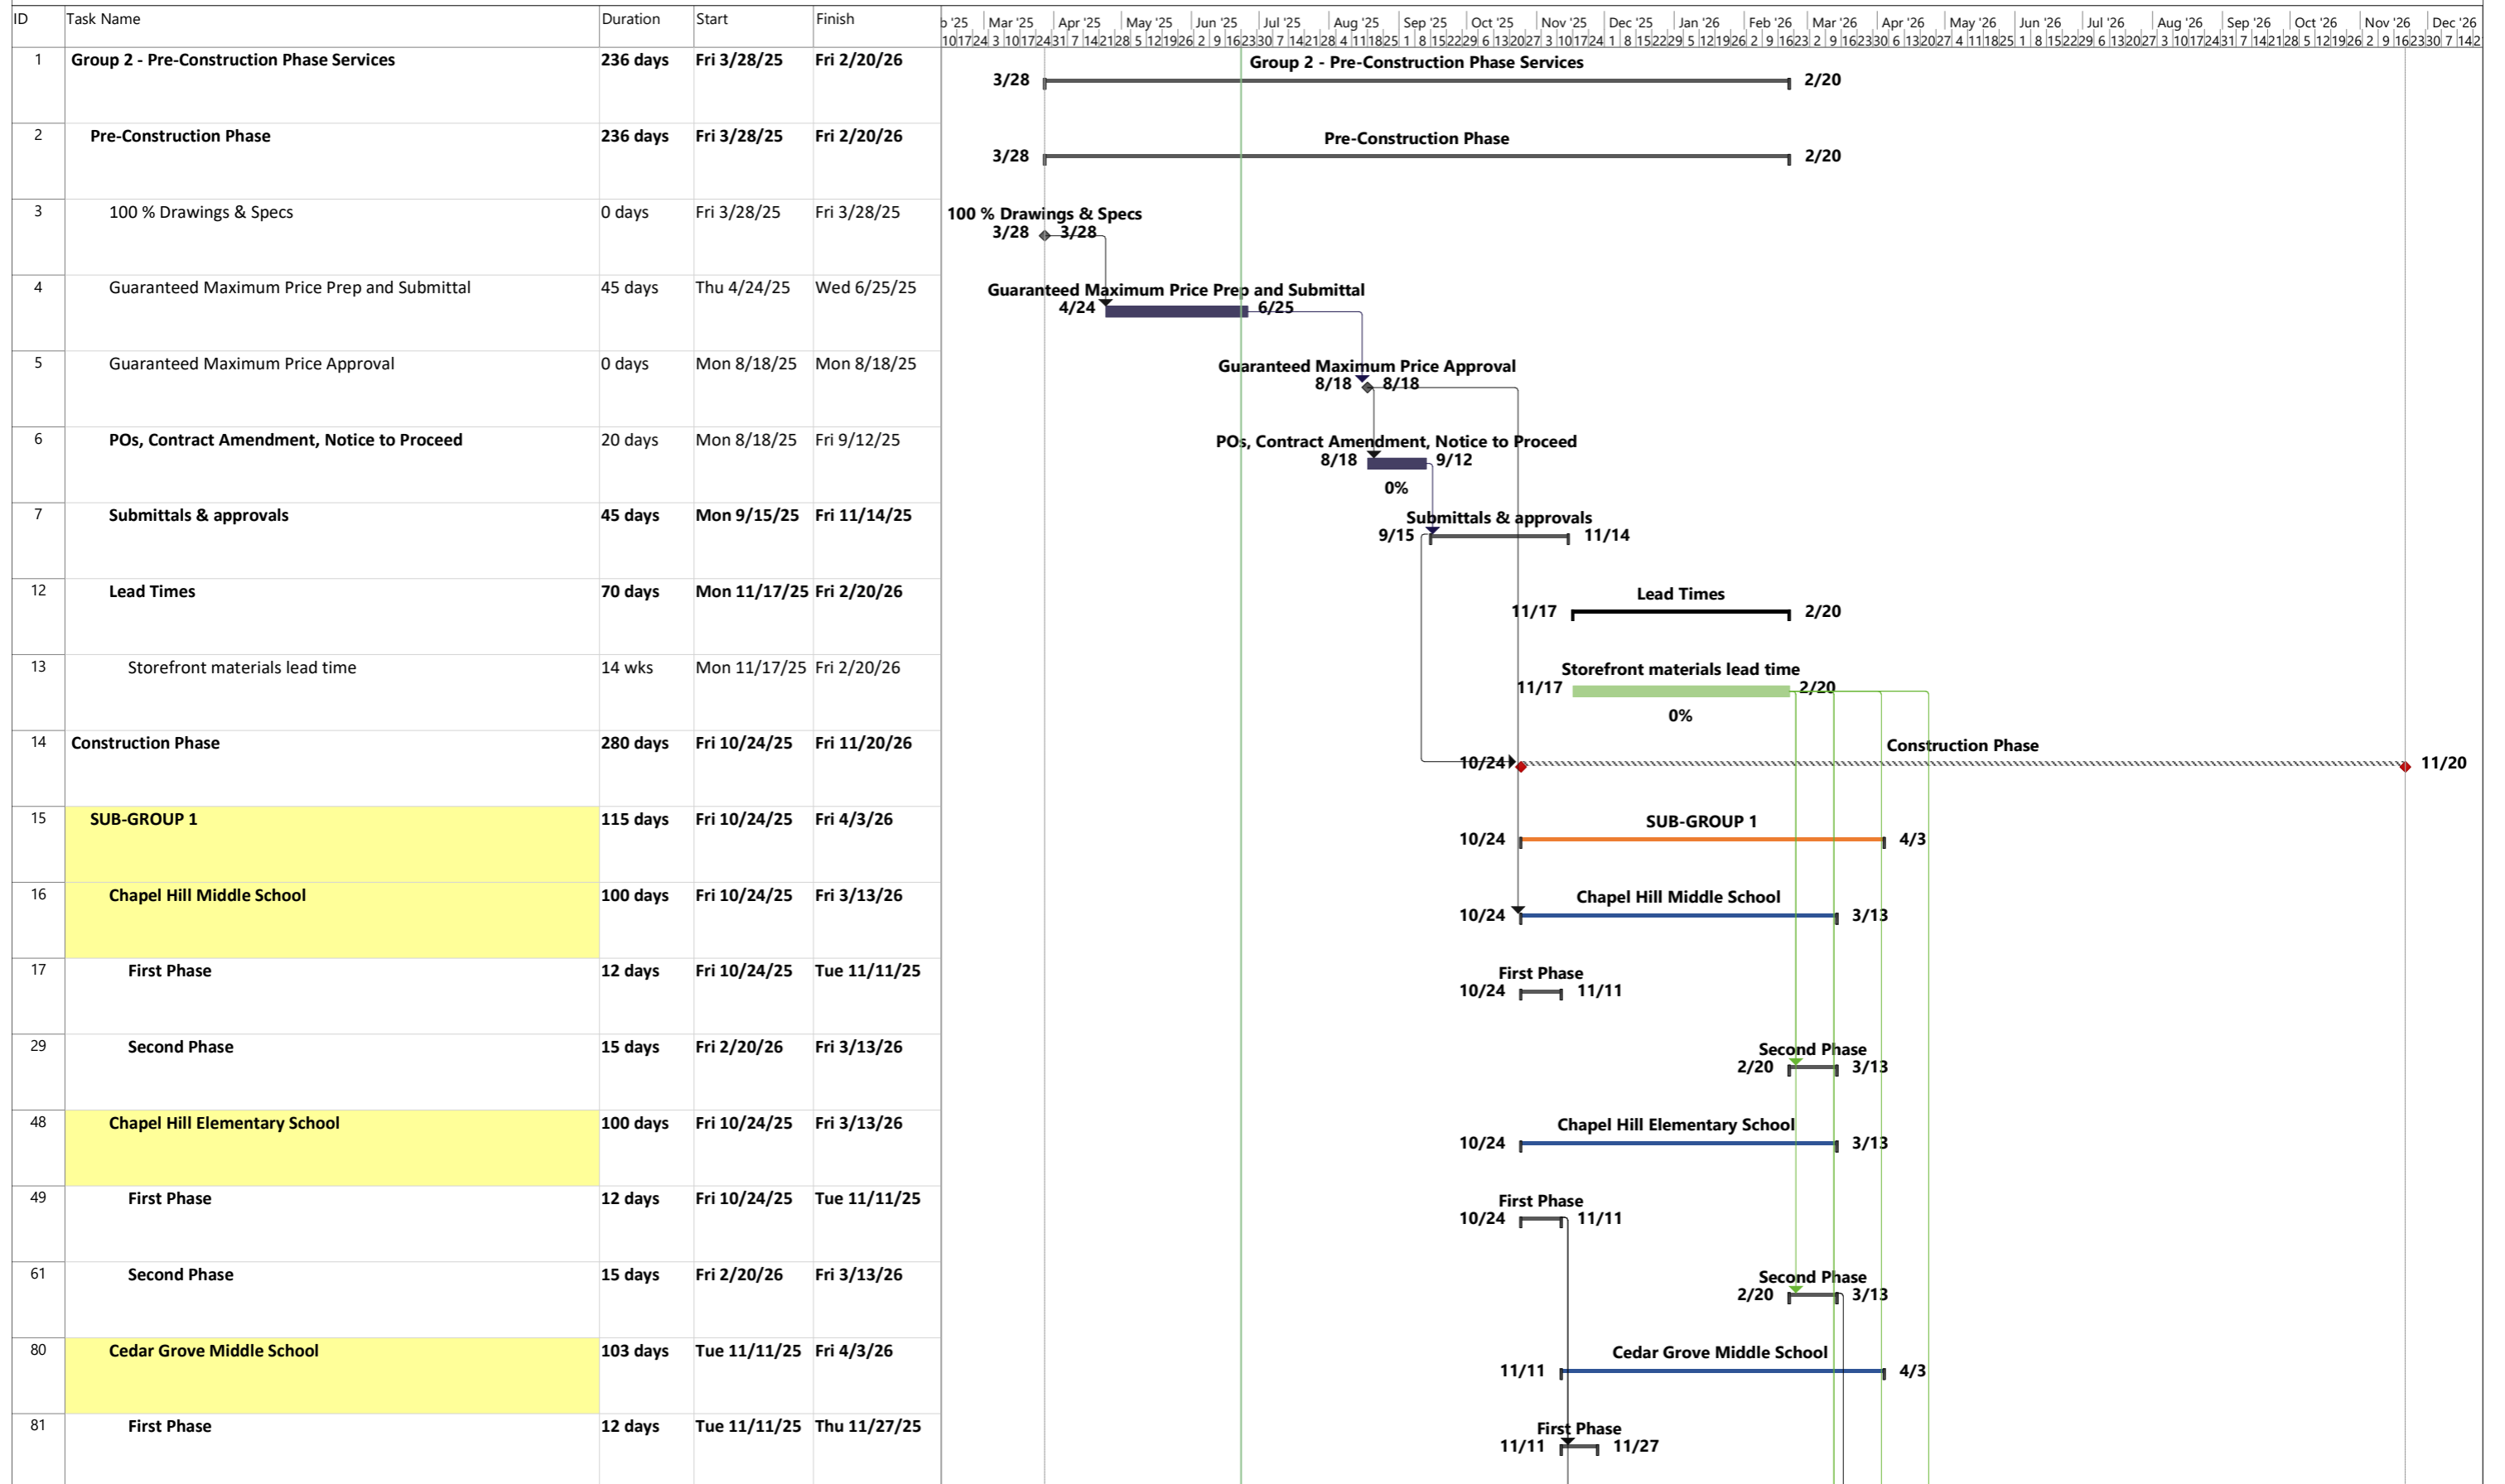

### **CMAR – Group 2 Security Vestibules**

Find schedule attached. The lead times used in this preliminary schedule are place holder based on preliminary feedback received from our subcontractors that will be updated once orders are placed. During the construction process, LEFKO will consider all time saving processes and/or ideas to ensure completion on time and on budget. The compliance of this schedule will be conditioned to current lead times and availability by the time of approval of this GMP.

# INTERIOR DEMO

**Selected price:** Ground Penetrating Radar Systems, inc. (Concrete Scanning)

## PROPOSAL

GPRS is the nation's premier company specializing in the detection of underground utilities and underground storage tanks, video pipe inspection, leak detection and the imaging of concrete structures. Our services enable your projects to stay safe, on time and on budget.

### SIM-CERTIFIED FIELD STAFF

Our SIM-Certified Project Managers are equipped with the latest technology, industry leading training and a methodology that has produced over 99.8% accuracy on over 300,000 projects. Visit [SIMSPEC.ORG](http://SIMSPEC.ORG) today for details.

### NATIONWIDE FOOTPRINT

GPRS is the largest company of our kind. With highly trained Project Managers across America we can provide rapid response to your job site — wherever it may be located.

### CONSULTATIVE APPROACH

GPRS Project Managers are trained to help you remove barriers that could impact your project being safe, on time and on budget. They provide industry-leading deliverables such as CAD, 3D drawings, NASSCO reports, and a .KMZ and .PDF map is included with every utility locating project which accelerates planning, organizes operations and increases communication.

June 9, 2025

**Client:** LEFKO CONSTRUCTION

**Project Address:** 2112 Seaman Circle Chamblee, GA 30341

**Quote Number:** GPRSQUOTE-209431

**GPRS Opportunity Name/Number:** CMAR - DCSD - Group 2 Security Vestibules - Concrete Scanning

**Submitted By:**

Macy Ross

**To schedule, please email:**

georgiainfo@gprsinc.com

GPRS appreciates the opportunity to provide this proposal. We encourage you to visit our website ([www.gprsinc.com](http://www.gprsinc.com)) and contact any of the numerous references listed. Our insurance certificate and W-9 can also be downloaded [here](#). Please feel free to contact us if you have any questions or need additional information. Visit [here](#) for an overview of our industry-leading best practices.

## SCOPE OF WORK

**General Concrete Scan:** We understand the scope of work on this project is to scan for conduits and utilities embedded in or just beneath a concrete slab in an area totaling up to 326 SF. The scan area(s) should be laid out, marked, and cleared of obstructions prior to our arrival to avoid additional charges. Our findings will be marked directly onto the surface using a permanent marker when acceptable or other methods depending on the site conditions or as directed by the client. The depth of detected conduits and pipes will be marked when possible, but these measurements are only estimates. We do not recommend that you saw cut over the top of any marked conduits/pipes. GPR cannot determine the diameters of conduits/pipes so avoid all markings by at least 3" (or more if possible.) Please visit [www.simspec.org](http://www.simspec.org) for an overview of our industry-leading best practices that will be applied to this project.

- GPRS is not responsible for housekeeping. Any debris, equipment, or other obstructions in the area at the time of scanning could potentially block out needed data.
- All of our technicians have OSHA-10 safety training or greater. Site-specific safety training is not included in this quote. Please notify us if this project requires additional safety training.

## EQUIPMENT

- **Concrete Scanning GPR Antenna.** This GPR Antenna is handheld and rolls over the surface. The device displays scan data on a screen, and the operator marks detected objects on the surface in real-time. The antenna needs a reasonably smooth, unobstructed surface for scanning and cannot scan within 2"-4" of obstructions such as walls and metal tracks. Ideally, the client removes obstacles such as these before our work begins. The total effective scan depth can be as much as 18" or more with this antenna but can vary depending on the concrete conditions, composition, and other factors such as the spacing of the reinforcing. Depth accuracy depends on obtaining a precise depth calibration for the concrete. This device does not emit harmful radiation and can be safely operated while people are in close proximity. For more information, please visit [Link](#)
- **Electromagnetic Pipe Locator.** This receiver can passively detect the signals from live AC power or radio signals traveling along some conductive utilities. Operators can connect a transmitter directly to accessible metallic pipes, risers, or tracer wires to generate a current at a specific frequency. The receiver can then detect the resulting signal along the pipe or tracer wire. Various factors may impact this device's effectiveness, including (but not limited to) access to the utility, conductivity, grounding, and interference from other utilities. The depths provided should always be treated as estimates as their accuracy can be affected by multiple factors. For more information, please visit: [Link](#)

**PROJECT COSTS**

SERVICE	DESCRIPTION
FIELD SERVICES	Described on Page 2
JOB SUMMARY REPORT	PDF including a brief description of equipment used, findings, limitations, and site photos sent at the conclusion of every job.
<b>TOTAL</b>	<b>\$700.00</b>

**GENERAL TERMS & CONDITIONS**

This proposal is subject to the General Terms and Conditions for Services of Ground Penetrating Radar Systems, LLC posted at [Link](#) (the "Terms and Conditions") and is hereby incorporated by reference into and made a part of this proposal. Customer acknowledges it has read and agrees to be bound by such Terms and Conditions. In the event of any conflict between the terms of this proposal and the Terms and Conditions, the Terms and Conditions will prevail. Customer also acknowledges that Ground Penetrating Radar Systems, LLC may, from time to time and at its discretion, modify the Terms and Conditions and Customer agrees to be bound by such Terms and Conditions as modified.

1. Customer agrees to meet and perform all requirements described in this document and has fully read and understands all items listed within this document.
2. It is the customer's responsibility to prepare the site for scanning, including clearly identifying areas to be scanned, securing access to all areas required for scanning, removing and keeping these areas clear and free of obstructions. Delays caused by customer's failure to do so may result in an increased price.
3. GPRS does not conduct an investigation, analysis, or interpretation of soil composition, soil/concrete conditions, or geophysical, geological, engineering, or land surveying information. The customer acknowledges understanding that we are merely reporting retrieved data and that we do NOT provide geophysical, geological, engineering, or land surveying services. Customer should contact a professional in those fields if such services are needed. Data collected during may only be suitable for use within the scope of this proposal.
4. If any work to be performed is within a road or street, unless specifically included by GPRS within this proposal, it is the customer's responsibility to provide adequate traffic control to allow GPRS' personnel to safely and efficiently work in the road/street.
5. Time-on-site in excess of 8-hours will be billed at overtime rates.
6. This price assumes that we will be given access to perform the work during normal, weekday business hours. Work performed outside of 6am-5pm Monday-Friday will be billed at overtime rates.
7. These rates assume that there are no certified payroll or prevailing wage requirements for this work. If GPRS receives notice that any of these conditions exist, there will be additional costs.
8. If this proposal is not accepted within 90 days of June 9, 2025, then the pricing may be subject to review.
9. If for some reason the technician arrives on site and the work is cancelled there will be a charge of \$500 per requested technician.
10. If your project is in WV, SD, NM, or HI: State sales tax is not included in the total on this proposal, but will be included on the invoice.
11. Payment Terms are Net 30; or as specified if a current Master Service Agreement is in place.

087100 Door Hardware  
088000 Glazing

Cristina,

As per your request, the following Bid Proposal outlines Atlanta Storefronts Scope Of Work at the above referenced facility in accordance with Plans and Specifications dated March 28 2025 and Addendum #1 and 2.

## **SCOPE OF WORK**

1. Supply and Install Oldcatle Series 3000 Thermal MultiPlane, 2" x 4-1/2" Front Plane Glazed Exterior Aluminum Storefront System finished in Class 1 clear anodized in Exterior opening marked 2/A3.10 = 28'5" x 10'8", with 3 Pair of Doors 6'-0" x 7'-0" with transom #100A, #100B, #100C. The doors leafs are Thermal Clad, 2-1/4" thick, with 5" Wide Stiles, 10" bottom rails, 6-1/2" mid rails and 6-1/2" top rails. We include Hardware for our doors per specifications. #100A = Group No. 19, #100B = Group No. 20, and 100C = Group No. 21.

The frames and doors are glazed with Type IG-1T = 1" Insulated Clear tempered glass units. The frames and doors up to 7'-0" are labeled to have BO1 Safety and Security film installed by Safe Haven.

2. Supply and Install Oldcastle Series 3000 Non thermal 2 x 4-1/2", center glazed Aluminum Storefront system finished in Class 1 clear anodized in Interior openings marked 3/A3.10 = 28'-5" x 10'-8", with 3 Pair of Doors 6'-0" x 7'-0" with Transom's, #100D and 100E, and 100F. The doors leafs are 1-3/4" thick, with 5" Wide Stiles, 10" bottom rails, 6-1/2" mid rails and 6-1/2" top rails. We include SF Door Hardware for our doors = #100D = Group No. 22. , and 100E = Group No. 23. and 100F = Group No. 24.  
4/A3.10 = Door #102A 1 Single 3'-0" x 7'-0" including Hardware Group 50.
-

# ATLANTA STOREFRONTS, LLC

---

The frames and doors are glazed with Type GL-5T = 3/8" clear tempered glass. The frames and doors up to 7'-0" are labeled to have B01 Safety film installed by Safe Haven.

3. Supply and Install 1- 3'-0"x 3'-0" Level 3 BR Transaction Security Ticket Window by QuikServ with 1-1/4" Acrylic Glazing, natural Speak-Around clear anodized framing and SS 36" x 12" x 2" Base with Integrated Deal Tray.
4. Demolish and put in GC dumpster, 3/AD1.00 3 Pair and side lites, 4/AD1.00, 1 single and side lites
5. Per page AD1.00 and Note W4 remove existing glazing and replace with 3/8" clear Tempered glass Type GL-5T at 10 windows = 19 pieces of glass and 144 SF.
6. Per page A1.100 remove existing glazing and replace with GL-5T , 3/8" clear Tempered glass in 9 Pair, 10 Single doors, and 28 lite kits.
7. Supply and Install sealant to the Exterior and Interior perimeters of all the new aluminum frames, The caulk color will match the frames.
8. We Include a daily clean up of our debris and one final clean of our installed materials.
9. We include the protection of our installed materials by wrapping them with brown paper held on with non residue tape.
10. Included are PE Reviewed and Stamped Shop Drawings, Submittal Data, Samples, and Existing test reports.
11. The aluminum finish warranty is 10 years and Workmanship warranty is 2 Years.

## **Items Not Included in this Proposal :**

1. Bond, if needed ADD \$5,400
  2. Pre construction Mockup that is Not part of the permanent work.
  4. Hiring of a Testing Agency or supplying supervision or equipment for testing.
  5. Designing of Field Quality-Control Inspection reports or programs.
  6. Free glass replacement if " broken" or "scratched" by others after installed.
-

# ATLANTA STOREFRONTS, LLC

---

7. “Delegated Design”, the shop drawings will be reviewed, calculated, and stamped by a PE licensed in the state of Georgia.
8. In the areas we do demolition we do not include any repair or patching of surfaces, or demo of Partitions
9. Purchasing of Safe Haven Film.

## Lead Times and Installation

- 1) Shop drawings and submittals are a 4 week lead time
- 2) PE Review and Stamp is a 4 week lead time.
- 3) The Custom Aluminum Doors and Hardware have a 10 week lead time.
- 4) Fab of aluminum is 2 weeks
- 5) Installation duration is 4 weeks.

**BASE BID     \$183,369**

## Alternate

1. To Supply Low E glass in all Exterior frames and doors will Add \$280 to base bid.

**Note : This Quote will remain valid as long as we receive a written commitment within 90 days.**

If there is any other information you require, please do not hesitate to call me. We look forward to the opportunity of working with you,

Thank You

Respectfully submitted,

## PROPOSAL

**Project: DCSD Group 2 – Chapel Hill Middle School #4**  
*Drawings & Specifications Dated: March 28, 2025*

Dear Ana,

Tuxedo Glass & Mirror is pleased to provide a proposal with the following scope of work:

- Framing:** Kawneer 451T & 451 Center Set (2" x 4 1/2")  
Clear Anodized Finish  
Exterior & Interior Vestibules
- Glass:** 1" IG – Energy Select28 @ Exterior Vestibule  
3/8" Clear Tempered Glass @ Interior Vestibule  
**3/8" Clear Tempered @ 3-thus window D13**  
**Note: 3/8" clear tempered glass does not meet GA Energy code requirements**
- Caulking:** 2 lines of silicone caulk at perimeter of all aluminum framing
- Doors:** Kawneer Wide Stile Exterior Doors
- (3) Pairs (6'-0" x 7'-0")
  - Doors 100A, 100B & 100C
  - Hardware Sets 19, 20 & 21
  - Surface Mounted Sweep included, bottom of door application not recommended
  - Doors include glass @ both "panel material" not aluminum as shown.
- Kawneer Wide Stile Interior Doors
- (3) Pairs (6'-0" x 7'-0") & (1) Single (3'-0" x 7'-0")
  - Doors 100D, 100E, 100F & 102A
  - Hardware Set 22, 23, 24 & 50
  - Surface Mounted Sweep included, bottom of door application not recommended
  - Doors include glass @ both "panel material" not aluminum as shown.
- Security:** QuikServ Ticket Window
- (1) thus @ 36" x 36"
  - Speak Around
  - BR Deal Tray
  - Level 3 acrylic BR glazing
  - Clear Anodized

**Demolition:** Demolition included at the following

- W01 – 3/AD1.00 – (3) pairs of doors & sidelites
- D13 – 3 exterior 3/AD1.00 & 4/A3.10
- Refer to notes in cover letter referencing waterproofing at openings and glass replacement.

**EXCLUSIONS**

- ACM Panel inserts (084113 1.2 A3)
- Delegated Design (084113 1.4E) **outside of PE Calcs for new storefront by TGM**
- Safety & Security Window Laminates (088723)
- Mock Up (088000 1.7A & 08413 1.8)
- 10 year water penetration warranty (084113 1.9 A D)
- Washing glass (088000 3.5)
- Laminated Glass (088000 1.35B,1.10 B)
- PE Stamp on shop drawings (only PE Calcs are stamped)
- Testing of any kind in field or laboratory (084113 2.2)
- Front set framing – drawings show center set (084113 2.3B)
- Non removeable glazing stops at doors (084113 2.4B3)
- Three way adjustable anchors (084113 2.8B)
- Maintenance agreement on new or existing doors & hardware
- Field Measuring prior to demolition
- Protection
- Concealed Flashing
- 3-coat, XL, or SunStorm Paint
- Attic Stock
- Auto operators
- Brake Metal Coping and Column Wraps or its coordination (**only included at storefront scope of work**)
- Casework/Millwork specialty glass/glazing, shelving, etc.
- Electrical card reader & intercom systems
- Electrical (Hi or Lo) Voltage wiring or its coordination
- Final Cleaning
- Fire rated caulking, framing or glass
- Concealed, Galvanized, and/or Stainless-Steel flashing or any counterflashing (by others)
- Graphics/signage
- Hollow metal framing and lite kits or glass stops at same
- Manuf. Certs. Or Approval
- NFRC- energy performance certificates
- Permanent Keying/Cores (**see add**)
- Protection from damage by Other Trades
- Replacement Warranties
- Self-adhered flashing peel & stick
- Structural support or wood blocking at perimeter of windows

**QUALIFICATIONS**

- Reference “Qualifications & Exclusions” Cover letter dated 5/21/2025 for additional qualifications & exclusions that may not be listed in this proposal.
- All performance, closeout, warranty is qualified as manufacturer’s standard paperwork & durations.
- TGM is not responsible for supply chain interruptions which affect the schedule.
- Price valid until September 2025
- Shop drawings will not have a PE stamp, PE calculations will be stamped.
- TGM does not include Mullion touch up due to damage by others.
- We have no testing Included. We will assist in any onsite testing provided by others.
- The glass (10) year warranty is for the hermetic seal of the IG unit & Coating. Breakage is not included.
- TGM is not responsible for landscape or sidewalk protection for any reason.
- If water testing is to be performed on this project, we require it to be done on the mockup and/or within the first 10% of the skin installation. All products used at the first water test need to be consistent throughout the building process and all sealant lines must be in place. We do not support one line of caulking defense only.

**Base Bid..... \$ 255,876 tax incl'd**

**Adds/Deducts to Base Bid:**

- **ADD** to replace glass @ 28 existing doors with **3/8" clear tempered** **ADD \$ 32,900 tax incl'd**  
TGM is not responsible for damage to doors when replacing glass  
Replacement of glass stops & lite kits as needed is included.
- **ADD** to replace (3) exterior storefront @ D13 **ADD \$40,750 tax incl'd**  
Approx 165 sq/ft  
451T framing with 1" IG ES28 glass  
Demolition of existing elevations included  
Pivot mullions included at curved area

Thank you for the opportunity to provide pricing for this project and we look forward to working with you on this project.

Sincerely,

*Ashley G Bramlett*

# SAFETY AND SECURITY FILM

**Selected price:** Safe Haven Defense Southeast

# PROPOSAL

<b>Prepared for:</b> Lefko Construction Attn: Marc Lefkovits 105 Mansell Cir Roswell, GA 30075 marc@lefkogroup.com (404) 846-6372	<b>May 2, 2025</b>  Safe Haven Defense Southeast P.O. Box 218, Manning, SC 29102 P: (803) 225-5194   frank@shdsoutheast.com www.shdsoutheast.com	<b>No. 2146</b>
---	---	-----------------

Chapel Hill MS - 3535 Dogwood Farm Road, Decatur

Scope of Work	Total
<b>Supply &amp; Install (735SF) Bullet Resistant Protection - Per SSOE Drawings (112 total panes)</b>	<b>\$158,030.00</b>
<p><b>PRODUCT DESCRIPTION</b>            Safe Haven Defense SW440BR/SW600BR laminate offers protection for small arms bullet resistance as well as glass breakage due to burglaries, hurricanes, and blast. SW440BR/SW600BR provides ONE-WAY bullet resistance allowing bullets to pass through from the interior but stopping bullets from the exterior.</p> <p><b>CERTIFICATIONS</b>            NIJ 0108.01 - Bullet Resistance (3rd Party Lab Certified)            UL752 - Bullet Resistance (3rd Party Lab Certified)</p> <p><b>USES/APPLICATION</b>            Safe Haven Defense SW440BR/SW600BR laminate is applied onsite, to the interior and exterior of existing windows/glass. Unlike traditional bullet resistant glass, no special modifications or retrofitting to the existing structure is required. SW440BR/SW600BR laminate can be applied over existing glass as thin as ¼ inch and will stop a 9mm on dual pane ¼” or 3/8” single pane.            *Existing window must be inspected to be structurally sound.</p>	
<b>Bond - 3%</b>	<b>\$4,741.00</b>

Please advise of any special PPE, badges, identification, or additional requirements for contractors/vendors. This project is expected to take 5 working days. Lead time will be 6-8 weeks. SHD will need access after typical work hours and weekends with minimal traffic in the work areas. SHD will need a clean/dust free working environment. This price is valid until December 31, 2025.	<b>Grand Total: \$162,771.00</b>

## **SCOPE OF WORK**

Safe Haven Defense Georgia, LLC will work with associated stakeholders adding security laminate to existing windows at the address stated on the proposal. The following details the responsibilities and performance objectives of Safe Haven Defense Georgia, LLC:

### **1. Responsibilities and Objectives**

- 1.1. Visually inspect windows for pre-existing damage/deformities.
- 1.2. Care will be taken not to damage any areas around the windows.
- 1.3. Employees will act in a professional manner when working and interacting with staff/employees.
- 1.4. Clean & Install Safe Haven Defense Laminate on the windows as described in the proposal.
- 1.5. Secure aforementioned laminate utilizing approved and standardized anchoring method.
- 1.6. Conduct quality assurance inspections daily throughout the installation process.
- 1.7. Maintain an orderly workspace during installation.

### **2. Glass Clarity:**

- 2.1. Installation crews will take every necessary action possible to clean all windows prior to the installation of the laminate.
  - 2.1.1. As this installation will be completed in an active environment; minor dust particles may appear after the installation of the laminate as a result of airborne dust.
  - 2.1.2. These particles should be few and not significantly detract from clarity or aesthetics when looking through the glass at a distance of 6 feet.
- 2.2. Laminates and films are applied with a water-based solution; therefore, it is normal for minor bubbling and hazing to occur during installation process before curing.
  - 2.2.1. This curing period is between 30-120 days depending on the level of exposure to direct sunlight, temperature, and thickness of laminate.

### **3. Safe Haven Defense Georgia, LLC is not responsible for the following actions:**

- 3.1. Clearing of space (inside or outside) to provide clean and unobstructed access to the target windows. Minor items may be an exception.
  - 3.1.1. Issues such as tree trimming, desk moving, and computer/electronic relocation will be completed prior to installation.
- 3.2. Permanent structures, piping, support beams etc. which may be an obstruction to the installation process, and cannot be relocated, will be evaluated on a case-by-case scenario.
- 3.3. Ballistic Laminate installation includes the use of liquid sprayed from high pressure tanks. Any item which may sustain water damage and subsequently devalue such item, shall be relocated prior to installation.

Safe Haven Defense Georgia, LLC is actively following CDC guidelines to the best of our abilities. Our COVID-19 response plan includes such measures as self-reporting of illness or feeling of illness and self-reporting of possible or confirmed exposures. If your facility requires additional precautions, please inform our team.

To the extent applicable, Johnson Controls has included an estimate only for all state and local sales tax for this quote. The actual sales tax due will be calculated and billed upon issuance of an invoice, unless a valid exemption and/or resale certificate is received by Johnson Controls. Any additional taxes, duties, tariffs or similar items imposed prior to shipment will be charged.

**IMPORTANT NOTICE TO CUSTOMER**

This Agreement is contingent on credit approval, which may be checked at JCI's discretion and requires final approval of a JCI authorized manager before any equipment/ services may be provided. Should credit and/or approval be declined, this Agreement will be terminated and JCI's only obligation to customer will be to notify Customer of such termination and refund any amounts paid in advance.

For Customers located in Canada, this Fire Domain Sale and Installation Agreement has been drawn up and executed in English at the request of and with the full concurrence of Customer. Ce contrat a été rédigé en anglais à la demande et avec l'assentiment du client.

**CUSTOMER ACCEPTANCE:**

In accepting this Agreement, Customer agrees to the terms and conditions contained herein including those on the following page(s) of this Proposal and any attachments or riders attached hereto that contain additional terms and conditions. It is understood that these terms and conditions shall prevail over any variation in terms and conditions on any purchase order or other document that Customer may issue. Any changes requested by Customer after the execution of this Agreement shall be paid for by the Customer and such changes shall be authorized by the parties in writing. **ATTENTION IS DIRECTED TO THE LIMITATION OF LIABILITY, WARRANTY, INDEMNITY AND OTHER CONDITIONS CONTAINED IN THIS AGREEMENT.**

Customer agrees to pay Johnson Controls pursuant to the progress-based billing schedule of values set forth below. If the schedule of values includes an upfront deposit, it will be paid within 30 days of contract signing and Johnson Controls will not commence work until the upfront deposit is received. Customer agrees to pay for materials, goods, and equipment (ordered, delivered, or stored) pursuant to the schedule of values, prior to installation commencement. The remaining portion of the total price will be progress billed through completion of the work. Johnson Controls progress based billing can also include any services performed on-site or off-site. All invoices will be delivered via Email(), paid via Electronic Funds Transfer and are due PWP (Pay When Paid) from the date of invoice. Electronic Funds Transfer details will be provided upon contract execution. The proposed total price is contingent upon Customer agreeing to these payment and invoicing terms.

**Planned Monthly Progress Billing Schedule of Values**

H & H Mechanical, Inc is please to offer the following proposal for your consideration:

**HVAC Scope of Work:**

1. Avondale MS \$5700.00
  - Relocate (2) Slot Diffusers
  - Provide Test and Balance, pre and post
  - Provide and install (1) Unit Heater
2. Cedar Grove MS \$4550.00
  - Relocate (1) Slot Diffuser
  - Clean (1) Existing Slot Diffuser
  - Provide and install (1) Unit Heater
3. Chapel Hill ES \$34675.00
  - Demo existing units as specified
  - Demo existing air distribution as specified
  - Provide and install CU-2/AHU2 with associated air distribution
  - Provide and install modifications to existing air distribution as specified
  - Provide and install new EF-1 and associated ductwork
  - Provide test and balance
  - ADD – Condensate pump for AHU-2
4. Chapel Hill MS \$4475.00
  - Clean (2) existing grills
  - Provide and install (1) Unit Heater
5. Columbia MS \$4550.00
  - Relocate (1) existing slot diffuser
  - Clean (1) Existing Slot Diffuser
  - Provide and install (1) Unit Heater
6. Eagle Woods \$2,555.00
  - Clean (2) existing grills
  - Add (1) Transfer duct with 2 grills
7. Evansdale ES \$782.00
  - Check operation of existing heater
8. Fairington ES \$2,720.00
  - Clean (1) existing grill
  - Clean and test (1) existing EF
  - Add (1) Transfer duct with 2 grills

Warranty:

- J&I Cordon Electric, LLC. is committed to providing defect-free goods and services to its customers. Training, inspection, testing, documentation, and other processes are followed to ensure all applicable standards are met.
- J&I Cordon Electric, LLC. warrants all labor to be free of workmanship defects for a period of 12 months from the date of substantial completion. During this 12-month period, J&I Cordon Electric, LLC. will promptly repair, at no cost to the owner.

Hazardous Materials:

- It is the obligation of the General Contractor to determine if the structure covered by this contract contains asbestos and/or other hazardous materials. This proposal and contract does not include any provision (neither monetary provisions nor time-schedule provisions) to cover the unforeseen hazards or additional work necessitated by removal of asbestos and/or other hazardous materials. If asbestos and/or other hazardous materials are discovered after work is already in progress, and if the asbestos and/or other hazardous materials represent a changed condition from those described in the contract documents, conformed set of drawings & specifications supplied by the Architect, Engineer or General Contractor. Then J&I Cordon Electric, LLC. shall be entitled to additional compensation and an increase in time for completion of the project.

All agreements contingent upon strikes, accidents, or delays outside of J&I Cordon Electric's control.

This proposal was prepared according to the information provided at the time of the proposal; any elements not specifically identified within this scope of work or provided information will be considered, 'Out-of-Scope', and subject to the Change Order process.

All the following are Responsibilities:

- Provide adequate manpower to keep up with job progress and schedule.
- Provide material in a timely manner for a smooth work flow.
- Agree to adhere to SEC standards, provide supervision of manpower, attend weekly job-site progress meetings, and follow all job-site and OSHA requirements regarding site safety, OSHA Regulations, and personal protection equipment.
- Daily job-site cleanup. Trash disposed of in proper containers daily
- Will caulk all electrical wiring penetrations.

\*\*\*PLEASE NOTE\*\*\*

Due to current delays in material manufacturing and shipping, this proposal and the scope of work are subject to change. These items may also result in completion delays and/or cost adjustments by J&I Cordon Electric at any time.

Upon receipt of a purchase order and/or subcontract agreement, and prior to an order acceptance by J&I Cordon

Electric, this scope of work and the associated Bill of Materials will be reviewed to confirm availability of ALL proposed items.

If any items are NOT readily available and/or if a shipment date cannot be provided by the manufacturer upon receipt of a purchase order, J&I Cordon

Electric will immediately notify the customer. Once a shipment date is provided, J&I Cordon

Electric will invoice the project to the customer at the time of material release and its purchase.

Due to the above listed information, J&I Cordon

Electric shall NOT be held liable for any liquidated damages at any time.

This Proposal is to furnish the labor and materials necessary for Bass Electric Inc. to install a complete electrical system per the Plans and Specifications.

Bass Electric Inc. will install a complete electrical system, as mentioned above, for the price of **(\$25,000.00) Twenty-five thousand dollars and zero cents.**

**This Proposal includes:**

- Remove any power from demolition area and relocate all other devices to nearby suitable location
- Re-tie lighting once reinstalled to existing lighting circuit
- Tie new exit sign circuit into nearby existing exit sign circuit
- Tie new power connection for ID scanner to nearby existing receptacle circuit

**Exclusions:**

- Fire alarm systems
- Parking lot lighting
- Low voltage (intercom, paging, HVAC controls, security access control, Voice/Data, Sound/speakers, security cameras, CATV)
- Cut-saw and patch pavement and concrete for new conduit
- Patching, finishing, and painting of drywall

If you have any questions or concerns, please feel free to contact me. Thank you for your consideration.

On behalf of Convergent’s global network of colleagues, I would like to personally thank you for providing Convergent with the opportunity to present this proposal addressing your electronic security needs.

The following security proposal is specifically designed to meet your needs. As your single point of contact, please feel free to contact me with any additional questions you may have. Thank you again for trusting Convergent as your partner.

### **Scope of Work**

- Provide and install security equipment for the expansion of access control system (ACS), IP video surveillance, and intrusion detection system (IDS) at the following locations:

- |  |                                      |
|--|--------------------------------------|
| 1. Avondale Middle School              | 14. Montgomery Elementary School     |
| 2. Cedar Grove Middle School           | 15. Oakcliff Elementary School       |
| 3. Chapel Hill Elementary School       | 16. Peachtree Middle School          |
| 4. Chapel Hill Middle School           | 17. Pine Ridge Elementary School     |
| 5. Columbia Middle School              | 18. Redan Elementary School          |
| 6. Eagle Woods Academy                 | 19. Redan High School                |
| 7. Evansdale Elementary School         | 20. Redan Middle School              |
| 8. Fairington Elementary School        | 21. Rowland Elementary School        |
| 9. Huntley Hills Elementary School     | 22. Snapfinger Elementary School     |
| 10. Mary McCleod Bethune Middle School | 23. Southwest DeKalb High School     |
| 11. McNair Middle School               | 24. Stone Mountain Elementary School |
| 12. Miller Grove Middle School         | 25. Towers High School               |
| 13. Montclair Elementary School        |                                      |

- For all card reader doors added:
  - Convergent to provide and install card readers, access control cabling
  - Electrical Contractor to provide one (1) single-gang box for card reader (42" A.F.F.) and conduit stub-up to accessible ceiling.
  - Others to provide one (1) exit device with electric latch retraction hardware set on the active leaf closest to the card reader. Convergent to provide lock power supply.
    - Electrical contractor to mount and connect 120VAC to lock power supply above accessible ceiling near new vestibule card reader door.
    - Electrical contractor to provide pathway with string within new door frame for electric door hardware.
    - Convergent to provide low-voltage cabling and connect the electrified exit device to the associated lock power supply and ACS.
  - One (1) door contact per leaf
  - Cabling to ACS enclosure (existing or new depending on availability).
    - Convergent to provide and install low-voltage cabling and connect the electric lock power supply to the electric latch retraction hardware.
    - Convergent to provide a two-door controller to connect the door to the LenelS2 OnGuard ACS.
- Convergent to provide and install two (2) remote release buttons to unlock vestibule interior card reader door.
  - One (1) located to the right of the transaction window.
    - Electrical Contractor to provide one (1) single-gang box for release button (42" A.F.F. and/or 8-10" above desk) and conduit stub-up to accessible ceiling.
  - One (1) located by front staff desk(s).
    - Exact location to be determined in coordination with the principal.
    - Electrical Contractor to provide one (1) single-gang box for release button (42" A.F.F. or 0-10" above desk and conduit stub-up to accessible ceiling.
- For all cameras added:
  - Convergent to provide, device harden, and install IP Video camera.
  - Convergent to surface mount on the drop ceiling interior cameras and surface mount exterior cameras.
  - Others to provide and install CAT6 network cabling.
- Existing equipment to remain as-is, where applicable.
- All required licensing is included.
- Cabling and connections to automatic door openers is included, where applicable.

### **Device Hardening (reduce cyber risk)**

Convergent may provide Device Hardening services for certain qualifying and scoped equipment. Services may include disabling unused & non-essential device features, disabling unused network comms (e.g., services, ports), changing default passwords, and updating firmware. The hardening services provided will depend on the equipment being installed, equipment capabilities, and manufacturer-provided permissions and recommendations. Not all equipment may receive hardening. Ask your Convergent contact for details on qualifying equipment and the hardening services being provided.

These are one-time services — ask your Convergent contact for information on how Convergent can provide ongoing support.

**Convergent cannot guarantee the security of the devices it installs or of Customer's IT environment, no networked system is completely secure, and Customer remains ultimately responsible for its IT environment.**

### **Pricing Structure**

<b>Description</b>	<b>Price</b>
<b>PROJECT BASE</b> (Select A or B)	
<b>A. New Interior Vestibule Wall and Door:</b> includes 2 release buttons, door access hardware, cabling, and existing camera and/or intrusion device relocation	<b>\$13,885.00</b>

## **Clarifications and Exclusion**

1. All work proposed herein, shall be performed during normal business hours Monday through Friday 8:00 am - 5:00 pm.
2. Low voltage wiring shall be installed via open air code approved methods.
3. Provision or installation of conduit, wire, boxes, fittings or other electrical installation materials unless specifically listed under Inclusions or Bill of Materials.
4. Permits or associated fees are not included.
5. Customer to provide static IP addresses and network connections at panel locations.
6. Customer to provide a secured staging & storage area for project related materials.
7. Pricing assumes that electronic Auto CAD files are available from customer for our use in creating submittal drawings.
8. Fifty percent (50%) of the proposed sell price shall be payable to Convergent for project mobilization. Mobilization shall be invoiced and due upon customer acceptance of this proposal.
9. Proposal does not include sales tax unless otherwise noted.
10. Anything in the Contract Documents notwithstanding, in no event shall either Contractor or Subcontractor be liable for special, indirect, incidental or consequential damages, including commercial loss, loss of use, or lost profits, even if either party has been advised of the possibility of such damages.
11. Convergent reserves the right to negotiate mutually acceptable contract terms and conditions with customer by making mutually agreeable changes to the formal contract included in the Bid Documents.
12. Supply Chain Delays & Price Adjustments: Customer acknowledges that supply chain disruptions and shipping delays may occur for reasons beyond Convergent's reasonable control and agrees to grant reasonable extensions for such delays. Pricing is based on current market conditions and excludes increases due to tariffs, duties, manufacturer-imposed surcharges, or other cost increases arising from trade policy, regulatory actions, or external factors beyond Convergent's control. If such cost increases arise, Convergent will submit a formal change order, and Customer agrees to approve reasonable adjustments. Convergent will use commercially reasonable efforts to minimize such increases.

**REVIEW IMPORTANT PRODUCT SAFETY AND SERVICE INFORMATION PRIOR TO USING A CONVERGENT-INSTALLED SYSTEM:** See the "IMPORTANT PRODUCT SAFETY AND SERVICE INFORMATION" documentation, available at [convergent.com/terms](http://convergent.com/terms).

## IMPORTANT NOTICE

You requested that Convergint provide you with certain security and safety products and services. By using these products and services, you acknowledge that:

- **Under no circumstances should Convergint-provided products and services be your sole method of security or safety.** Effective security and safety require a multi-layered approach involving people, processes, and technologies. Convergint-provided products and services do not guarantee security or safety, will not detect or prevent all threats or risks all the time (including threats they are designed to detect), and will not ensure overall safety and security. You are ultimately responsible for your people, premises, and property, including for maintaining an effective response plan and promptly implementing your response plan in response to alarms or threats.
- **All security products and services have limitations.** No product or service can guarantee safety or security. It is your responsibility to ensure you are informed about product or service limitations and that you regularly test and validate the products and safety plans. Reach out to your Convergint account executive to learn how our support services can help. And if you have a service plan, you are responsible for promptly notifying Convergint in the event of any defect, malfunction, or performance issue with the products and services.
- **Various factors can impact product performance.** Selecting products and settings may involve tradeoffs between the level of security and safety on the one hand and speed, convenience, and cost on the other hand. Convergint can give you guidance, but you are ultimately responsible for selecting products and settings based on your organization's risk profile and tolerance.
- **The products are made by third-party manufacturers, not Convergint.** You are bound by and must use, test, and maintain the products in accordance with the manufacturer's terms and instructions. Convergint does not independently validate the accuracy of claims or statements made by manufacturers, and makes no assurances regarding their accuracy. You are responsible for using the products and services in compliance with laws and regulations applicable to you or as permitted in your jurisdiction.
- **All products and services are governed exclusively by a final agreement.** No advertisement, literature, brochure, website, or statements made during the sale process or otherwise (whether orally or in writing) should be interpreted as a promise, warranty, or other assurance.
- **You have reviewed the "IMPORTANT PRODUCT SAFETY AND SERVICE INFORMATION" documentation, available at [convergint.com/terms](https://convergint.com/terms).**

**Total Project Investment:**

**\$ 470,660.00**

Thank you for considering Convergent for your Security needs. If you have any questions or would like additional information, please don't hesitate to contact me immediately. If you would like to proceed with the scope of work as outlined in this proposal, please sign below and return to my attention.

Sincerely,

[[SLFN]] [[SLLN]]  
Convergent  
[[SLFN]] [[SLLN]]

By signing below or accepting the services described in this proposal, Customer accepts and agrees to this proposal, including the enclosed Terms and Conditions, along with any addendums or exhibits that may be attached or referenced therein. Any additional or contrary terms, including on a Customer PO, are expressly rejected. By signing, you represent and warrant that you have authority to accept this proposal on behalf of Customer.

# Scope

SWC is pleased to offer this quote for the following systems based on bid documents:

- Rauland Legacy Intercom Systems with Rauland TCU Overlay
- Rauland TCU Hybrid Systems

Architect/Engineer: SSOE Project/reference number: 024-01028-14

Specification(s) dated:

- No specification sections applicable to SWC's Scope of Work

Addenda, clarification(s), Add/Alternates, etc included:

- Addendum 1- 4/25/2025
- Addendum 2- 5/01/2025

Unsolicited additions/alternates included:

- Included pre and post construction tests for the Rauland Intercom System at each site. This is needed to insure the existing systems in the front office are functioning properly before and after the renovations in these area are made.

Notable deviations from the drawings:

- Drawings provided do not depict the speakers currently installed as well as locations of equipment needed to keep the existing Rauland intercom systems functional. See breakdown of proposed scope at each site below.

Additional notes or scope:

- Price does not include any conduit, back cans, coring, boring, or 110v power.
- All work is to be performed outside of normal business hours.
- Unless defied as such under per site scope below, all existing cable, speakers, call buttons, and Rauland Intercom components will be reused as part of this project.
- All CAT6 data cable by others. Price is not covered in this proposal.
- The construction documents did not contain modifications needed to keep the existing Rauland intercom systems functional.
- Chapel Hill ES, Huntley Hill ES, Montclair ES, and Snapfinger ES show a data rack being relocated to the new front office. The rack depicted is the existing Rauland legacy intercom and will be relocated as shown.
- See breakdown of proposed scope at each site below.

# Scope (cont)

\*\*\*Many of these modifications are to systems that have been discontinued, and replacement parts are no longer available. These systems will be referred to as Rauland “legacy” Intercom systems. SWC will not be responsible for replacing, repairing or providing any warranty on these Rauland legacy Intercom systems. \*\*\*

SWC Scope of work per site:

1. Dekalb Arts Academy @ Avondale MS- 3131 Old Rockbridge Road Avondale Estates, GA, 30002
  - Pre and post construction test on the existing Rauland legacy Intercom system
  - Remove and reinstall speakers as needed in renovated area on E1.01
