

Board Policy FD: Facilities Long-Range Planning

Status: ADOPTED

Original Adopted Date: 12/17/2020 | Last Reviewed Date: 12/17/2020

The Board of Public Education for Bibb County ("The Board") is authorized to make comprehensive studies to determine the need and location of public school buildings, to determine the safety and educational requirements of school buildings, and to plan the methods of financing the cost of constructing and equipping such buildings. The construction of all school buildings must be approved by the Superintendent and the Board and must be according to the plans furnished by the architect to the State Board of Education.

The Board shall develop and submit to the State Board of Education for approval once every five years a Local Facilities Plan that identifies the system's facility needs for the ensuing five years. A Local Facilities Plan shall be maintained in accordance with the requirements of State Board of Education. At least once every five years, the State Board of Education will conduct a comprehensive facilities survey.

The Superintendent or designee shall maintain and annually update a comprehensive updated facility inventory to qualify for state capital outlay funds.
