

CHRONOLOGY OF THE AGENDA ITEM

The Druid Hills High School facility was identified as needing extensive renovation as part of the District's planning process for E-SPLOST VI. The recommended scope of the renovation was upgraded to 'modernization' to take advantage of GaDOE reimbursement funding for modernization capital improvement projects.

The steps to receiving GaDOE reimbursement for modernization start with passing a resolution stating the District's intent to modernize the facility, followed by inclusion in the District's "Local Facility Plan" filed with GaDOE, and then by applying for reimbursement. All of these steps happen before the project begins.

- On February 25, 2022, the Board removed the Druid Hills High School facility from a resolution to "Phase Out and Modernize District Facilities."
- On April 18, 2022, the Board voted to amend a resolution to remove modernization of the Druid Hills High School facility.
- On May 31, 2022, the Board voted to approve a resolution to modernize the Druid Hills High School facility.
- On August 8, 2022, the Board voted to approve the FY 2024 Reimbursement Application to GaDOE, which included reimbursement for the Modernization of the Druid Hills High School facility.
- On August 14, 2023, the Board approved a contract with MSSA-PBK Architects for Architectural and Engineering Services for Druid Hills High School Modernization, Phase 1: The development of a Modernization Report, a Site Utilization Study, and Conceptual Design options at Druid Hills High School.
- On March 10, 2025, the Board approved Contract Amendment No. 1 with MSSA-PBK Architects to extend Phase 1 of the contract for Architectural and Engineering Services to include potential sites other than the current Druid Hills High School site.
- If approved, this resolution will confirm the location of the Druid Hills High School site as the current Druid Hills High School site (1798 Haygood Drive NE, Atlanta, GA 30307) and reaffirm the board's commitment to modernizing the Druid Hills High School facility, including rebuilding parts of the facility as necessary.
