

Dr. Dan A. Sims, Superintendent

ACTION MEMORANDUM

To: Board of Public Education for Bibb County ("Board")

From: Kevin Adams, Chief Information Officer
Dr. Elaine Wilson-Beverly, Procurement Director

Subject: RFP # 26-029 Network Switch Replacement

Summary

The Technology Services Division is seeking Board approval to replace core network switches in our District data center and schools. This request is based on RFP 26-029 and will utilize a combination of E-Rate funds (85%) and general funds (15%).

Background

In February of 2026, the Bibb County School District issued an RFP requesting bids for Network Switches. To maintain the integrity of the network built to serve our schools and District offices, we must continue to upgrade our network switches roughly every five (5) years. These are for a core data center and routing switches at each school/facility.

Recommendation

It is recommended that the Bibb County Board of Education authorizes the purchase order to DISYS Solutions, Inc for the District's upgrade of network switches in an amount not to exceed \$755,000. The funding source is E-Rate and general funds.
