- ◆ Region 14 ESC, as the lead public agency, has partnered with NCPA to make the resultant contract available to all participating agencies in the United States. NCPA provides marketing and administrative support for the awarded vendor that promotes the successful vendor’s products and services to Public Agencies nationwide. The Vendor will execute the NCPA Administration Agreement (Tab 2) upon award. Vendor should thoroughly review all documents and note any exceptions to NCPA terms and conditions in their proposal.
- ◆ Awarded vendor(s) shall perform covered product or services under the terms of this agreement. Respondents shall provide pricing based on a discount from their standard pricing schedules for products and/or services offered. Electronic Catalog and/or price lists must accompany the proposal. Multiple percentage discount structure is also acceptable. Please specify where different percentage discounts apply. Additional pricing and/or discounts may be included.
- ◆ Each product or service proposed is to be priced separately with all ineligible items identified. Services may be awarded to multiple vendors. Respondents may elect to limit their proposals to a single product or service within any category, or multiple products or services within any and all categories.
- ◆ National Cooperative Purchasing Alliance (NCPA)
 - The National Cooperative Purchasing Alliance (herein “NCPA”) assists public agencies to increase their efficiency and reduce their costs when procuring goods and services. This is accomplished by awarding competitively solicited contracts that are leveraged nationally by combining the volumes and purchasing power of entities nationwide. Our contracts are available for use by any entity that complies with procurement laws and regulations.
- ◆ It is the intention of Region 14 ESC and NCPA to achieve the following objectives through this RFP.
 - Provide a comprehensive competitively solicited Master Agreement offering Products and Services to Public Agencies;
 - Achieve cost savings of Vendors and Public Agencies through a single competitive solicitation process that eliminates the need for multiple proposals;
 - Combine the purchasing power of Public Agencies to achieve cost effective pricing;

AmTab Manufacturing Corporation provides a great deal of Value Added Services to our customers beginning with the design of our products. Our folding tables, for example, are easy to fold and put away without injury, pain-staking time expended, and without large amounts of required storage space. Safety and Ease of Use are two of our core values. Our team of furniture designers and engineers work to meet these values as well as Quality and Value for Investment.

Our interior design team is available to help our customers with space planning, furniture migration strategies, assistance with furniture selection and generating site drawings. A customer can walk away with a clear expectation of what their space will become and how many people it can accommodate.

Tab 9: Innovation

AmTab strives to continually improve and innovate within the marketplace so that we can better meet ever-changing environments and the needs of our customers. Our expansion into Signage, Environmental Branding and Décor has been by far the most impactful innovation for our company within the last few years. This business unit allows the customer to create a complete environment as opposed to only replacing furniture. The sales results in this category have grown dramatically and schools have seen a 10%-15% increase in school meal participation. This has been a true success story for buyer, seller and user as schools see the level of student engagement increase.

We also have added to our array of customizable features, many at the suggestion of our customers. Options such as Charging stations and wire management systems have enhanced our computer and technology table offerings. Chemical resistant (various varieties) tabletop options have had favorable results with our science lab and healthcare business units. These are small, yet significant options that maintain our products at the top of industry standards.

Half-circle booths have also been a recent development which have enhanced both the cafeteria and the hospitality/restaurant categories. As with signage, half-circle booths have contributed to creating stylish and engaging dining environments.

Our customers are the drivers of future innovations. While AmTab has recently made a modest presentation in the E-Sports marketplace, it is expected to be a growth area with expansion of products in this category over the next couple of years.

Our buyers and furniture designers are constantly on the lookout for new finishes and features in the marketplace. We will continue to keep upholstery products and laminate finishes in colors which fit with styling trends. Additionally, features such as adjustable height legs, baghooks and ADA accommodation options will continue to be added to our upgrades array. As the marketplace evolves, AmTab will continue to offer solutions to our customer's needs.

DISADVANTAGED BUSINESS PARTICIPATION

This Contract is subject to the requirements of Title 49, Code of Federal Regulations, Part 26, "*Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs*", therefore, it is the policy of the Department of Transportation (DOT) to ensure that Disadvantaged Business Enterprises (DBEs), as defined in 49 CFR Part 26, have an equal opportunity to receive and participate in the performance of DOT-assisted contracts.

Each subcontract Contractor signs with a subcontractor must include the assurance in this paragraph. (See 49 CFR 26.13(b)).

- 2) **Prompt Payment.** Contractor is required to pay each subcontractor performing Work under this prime Contract for satisfactory performance of that work no later than thirty (30) days after Contractor's receipt of payment for that Work from public agency. In addition, Contractor is required to return any retainage payments to those subcontractors within thirty (30) days after the subcontractor's work related to this Contract is satisfactorily completed and any liens have been secured. Any delay or postponement of payment from the above time frames may occur only for good cause following written approval of public agency. This clause applies to both DBE and non-DBE subcontractors. Contractor must promptly notify public agency whenever a DBE subcontractor performing Work related to this Contract is terminated or fails to complete its Work, and must make good faith efforts to engage another DBE subcontractor to perform at least the same amount of work. Contractor's failure to so comply shall constitute a material breach of this Contract.

INCORPORATION OF FEDERAL TRANSIT ADMINISTRATION (FTA) TERMS

The provisions include, in part, certain Standard Terms and Conditions required by the U.S. Department of Transportation (DOT), whether or not expressly set forth in the preceding Contract provisions. All contractual provisions required by the DOT and applicable to the scope of a particular Contract awarded to Contractor by a Public Agency as a result of solicitation, as set forth in the most current FTA Circular 4220.1F, published February 8th, 2016, are hereby incorporated by reference. Anything to the contrary herein notwithstanding, all FTA mandated terms shall be deemed to control in the event of a conflict with other provisions contained in this Contract. Contractor agrees not to knowingly perform any act, knowingly fail to perform any act, or refuse to comply with any reasonable public agency requests that would directly cause public agency to be in violation of the FTA terms and conditions.

NO FEDERAL GOVERNMENT OBLIGATIONS TO THIRD PARTIES

Agency and Contractor acknowledge and agree that, absent the Federal Government's express written consent and notwithstanding any concurrence by the Federal Government in or approval of the solicitation or award of the underlying Contract, the Federal Government is not a party to this Contract and shall not be subject to any obligations or liabilities to agency, Contractor, or any other party (whether or not a party to that contract) pertaining to any matter resulting from the underlying Contract.

Contractor agrees to include the above clause in each subcontract financed in whole or in part with federal assistance provided by the FTA. It is further agreed that the clause shall not be modified, except to identify the subcontractor who will be subject to its provisions.

Contractor acknowledges that the provisions of the Program Fraud Civil Remedies Act of 1986, as amended, 31 U.S.C. §§ 3801 et seq. and U.S. DOT regulations, "Program Fraud Civil Remedies," 49 CFR Part 31, apply to its actions pertaining to this Contract. Upon execution of the underlying Contract, Contractor certifies or affirms, to the best of its knowledge, the truthfulness and accuracy of any statement it has made, it makes, it may make, or causes to be made, pertaining to the underlying Contract or the FTA assisted project for which this Contract Work is being performed.

In addition to other penalties that may be applicable, Contractor further acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986 on Contractor to the extent the Federal Government deems appropriate.

Contractor also acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government under a contract connected with a project that is financed in whole or in part with Federal assistance originally awarded by FTA under the authority of 49 U.S.C. § 5307, the Government reserves the right to impose the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5307 (n)(1) on the Contractor, to the extent the Federal Government deems appropriate.

EXHIBIT F

Project Name: Hofius Intermediate School

Project Location: Spring, Texas

Project type: Middle School / JR High

Category: Small / Special Project

Submitted by: AmTab Manufacturing Corporation

Executive Summary

AmTab Manufacturing Corporation was tasked with the challenge to create a dynamic and multi-functional area out of a blanket room that had no purpose, definition, or flow being that it was new construction. AmTab was provided a budget of Two Hundred Thousand Dollars (\$200,000.00) to create a masterpiece at Hofius Intermediate School in Spring, Texas. The dynamic, popular, modern and fun area AmTab Manufacturing created was not just a dining commons rather it served as a flex space that was composed of multifunctional seating, a balcony, a study area, and a stage. This project created ceaseless opportunities of usage for Hofius Intermediate School including but not limited to a wrestling room, a waiting zone for students boarding buses, meetings, and classes.

AmTab Manufacturing Corporation created this detail oriented flex dining commons space from the floor up to the ceilings. The space was transformed into an area where students, staff, parents, as well as community members could gather to form relationships, facilitate business, as well as show their school pride. As a result of the planning, designing, and furnishing participation numbers in breakfast and lunch programs increased by over 20%.

Scope of Work and Budget

1. Problem Statement

The problem with this current school was creating a high-performance K-12 Dining Commons environment that could be used as a multifunctional area that would not only meet the needs of the students but the needs of the faculty and staff, board members, and community. Since this project was new construction we had to work side-by-side with different parties including schoolboard members, superintendents, union members, and dealers to find a solution to create this modernized food court. Being that there were so many needs and demands with this project and the budget was Two Hundred Thousand Dollars (\$200,000) AmTab had to be very cognizant of every little detail as we knew we could not go outside of this budget as this would result in hurting the schools' resources.

2. Goals of the Agreement

The goals of this project was to create a state-of-the-art K-12 Dining Commons environment for the students, faculty and staff, and occasionally the community to enjoy. This world class and modern Dining Commons would also be used for a wide variety of activities during the average school day. This space would be used by educators as a flex space, wrestling practice area, meeting center, flexible lecture hall, as well as a waiting area for students to take buses after school.

3. Deliverables

Our design team as well as our partnership team traveled down to Hofius Intermediate in order to take precise measurements and to meet with school officials to make sure their customized needs and goals were met. Our team provided a variety of world-class furniture options to meet the dynamic usages of this space. We also created customized wall graphics and décor to help inspire students, spark conversations, and improve school pride.
