BIBB COUNTY SCHOOL DISTRICT

Dr. Dan A. Sims, Superintendent

INFORMATION MEMORANDUM

To: Board of Public Education for Bibb County ("Board")
Dr. Dan A. Sims, Superintendent

From: Sam Kitchens, Assistant Superintendent of Operations

Subject: Districtwide Security Aiphone/CCTV Project

Summary

This memorandum serves to inform the Board of the revision of the funding source associated with the Purchase Order 26105936 previously issued to NextGen.

Background

As part of the 2021 ESPLOST initiative, the Board approved districtwide upgrades to security camera and intrusion systems, modernizing safety infrastructure and protection for students, staff, and assets.

The Bibb County School District originally implemented an analog camera system to provide exterior coverage only. The District upgraded to a digital system and added cameras to include interior coverage. However, the older equipment did not have updated security features or proper coverage. Modern security cameras with analytics and radar systems will provide enhanced security districtwide for all facilities and athletic fields.

The Capital Programs, Safety and Security and Campus Police departments performed in-depth security assessments of all facilities including interiors, exteriors, parking lots, and athletic fields. Funding allows for the immediate enhancement of security systems to continue providing a safe and secure environment for all students, staff, and properties.

Recommendation

This memorandum serves to inform the Board of the revision of the funding source associated with the Purchase Order 26105936 previously issued to NextGen. Out of the total amount of $1,142,309.50, $855,820.76 will be allocated from 2021 ESPLOST to the Safety and Security Grant. This adjustment will help ensure that the available Safety and Security Grant funds are fully utilized before their expiration date on June 30, 2026.
