Notice of Sole Source

Dear Mr. Simmons,

Per your request we would like to provide you with documentation indicating that Commercial Controls Group is a Carrier Corporation's iVu Controls Factory certified Installation and Field Office in the Middle Ga Territory. Commercial Controls Group is comprised of field offices located in Macon & Warner Robins, GA. They have the right to sell and service Carrier Corporation's iVu Controls products and systems within their assigned territory and are the sole source for all Carrier Corporation's iVu controls products.

Commercial Controls Group serves end users, engineers, and contractors with full sales, design, and engineering support. This field office employs a team of factory certified engineers, programmers, project managers, and installers to provide customized building automation systems, installation services and system commissioning services to ensure projects are designed and installed per Carrier Corporation's iVu Controls Factory standards.

Commercial Controls Group has fully complied with, and in many cases exceeded, all the technical, engineering, and business requirements necessary to maintain the high standards and expectations our customer rely on to keep their facilities running efficiently and effectively. Commercial Controls Group enjoys the full support of Carrier Corporation's iVu Controls Factory as a valued dealer partner and you could not be in better hands.
