

Dr. Dan A. Sims, Superintendent

ACTION MEMORANDUM

To: Board of Public Education for Bibb County ("Board")
Dr. Dan A. Sims, Superintendent

From: Kevin Adams, Chief Information Officer
Dr. Monica Radcliff, Director of Instructional Technology

Subject: Canvas Renewal FY27

Summary

The Office of Technology Services is seeking Board approval of the annual renewal of Canvas Learning Management System and Canvas Studio software subscriptions for all instructional classrooms for the 2026-2027 school year.

Background

Bibb County School District has been utilizing Canvas as an integral part of our digital ecosystem since the FY20 school year. This resource seamlessly integrates curriculum resources into the courses allowing teachers and students to have a one-stop shop for accessing content, assignments, and other important materials.

Canvas LMS (Learning Management System) is a cloud-based platform widely used in educational institutions. It offers features like course management, assignments, communication tools, and analytics. Instructors can create, organize, and manage course content, making it a valuable tool for teaching and learning. Canvas Studio is an integrated video platform within Canvas LMS. It enhances the learning experience by allowing instructors and students to engage with media content. Studio seamlessly integrates with Canvas courses and supports active discussions around videos. It is a powerful tool for making video content interactive and accessible. As outlined in the quote, this is the first annual purchase of this agreement with an opportunity at four annual renewals with established pricing changes.

Recommendation

It is recommended that the Bibb County Board of Education authorizes the purchase order to Instructure for the District's Canvas software licenses in the amount not to exceed \$160,178.09. The funding source is FY27 General Funds.
