

Hi Marcia,

Chevron's Doraville Terminal believes supporting education—especially in science, technology, engineering, and math (STEM)—helps prepare today's students for tomorrow's careers. Wherever we operate, we aim to be a good neighbor by listening to community needs and helping build a stronger future. Through its partnership with Africa Children's Fund, Chevron is helping expand students' access to STEM learning and educational opportunities.

Chevron is pleased to provide Hightower Elementary School with a \$10,000 education contribution to support monthly STEM experiments and projects.

Please let me know if you have any questions and thank you for your partnership.

Warm regards,

Amy Brandenstein
