BIBB COUNTY SCHOOL DISTRICT

Dr. Dan A. Sims, Superintendent

ACTION MEMORANDUM

To: Board of Public Education for Bibb County ("Board")
Dr. Dan A Sims, Superintendent

From: Dr. Elaine M. Wilson, Executive Director of Procurement
Anthony Jackson, Executive Director of Transportation

Subject: Tyler Technologies Student Transportation (powered by Traversa)-Renewal

Summary

The Transportation Department is requesting authorization for the Superintendent to issue a purchase order to Tyler Technologies for the renewal of contracted services of the Tyler Student Transportation (powered by Traversa) Software Suite.

Background

Bibb County School District's Transportation Department has utilized a variety of Tyler Technologies student transportation products since 2011. These products include routing, field trips, vehicle location, parent applications, dispatch, and route navigation platforms. In 2022, the Department added Tyler Drive to this Suite of products and transitioned from a server-based application (Versatrans Routing and Planning) to a web-based application (Traversa) in 2023. Several components ensure this vendor is an approved Sole Source.

Recommendation

It is recommended that the Bibb County Board of Education authorizes the Superintendent to issue a purchase order for $183,454.51 to Tyler Technologies for the renewal of contracted services of the Tyler Student Transportation (powered by Traversa) Software Suite. The funding source is the General Fund budget.
