Scope of Service

Eagle Christian Tours, I.I.C (hereafter referred to as “ECT”) has been in operation since September of 2012 and we have served millions of customers since our foundation. We currently operate (30) 56-passenger motorcoaches, (8) 34-passenger motorcoaches, and (7) 22 to 25 passenger mini buses, all of which provide local and long-distance full-service transportation for our guests. The driving motivation behind the service that ECT provides is our company mission to glorify God by serving people with the heart and mind of Christ. This mission influences everything from our hiring process for Host-Drivers, to how our maintenance technicians service our fleet, to the detail-oriented training of our reservation staff.

ECT's headquarters is in Rome, GA and while we do not currently have any satellite locations, our leadership team is currently assessing our options for possible satellite locations to open in the next 5 years. We are members of several consortiums that include other motorcoach transportation companies. These groups connect us with other companies all over the country that can help provide resources for our Host-Drivers and buses when they are traveling outside the standard radius of our headquarters location. Our headquarters acts as a 24-hour Support Center for our Host-Drivers and our guests while they are on a trip. Our Host-Drivers have 24-hour access to technical support from our maintenance team, and guests have 24-hour access to our office support staff for any on-the-road emergency needs. These support lines are accessed after hours through our office number (706) 314-8684 using extension numbers that can be provided to groups upon request.

Our fleet is inspected by our maintenance technicians at a regular interval as well as US and GA DOT officers annually. ECT employs our own team of qualified technicians to provide all preventative and required maintenance on our fleet. We have a 24 acre campus that includes 2 full size bus shops, a parts warehouse, wash bay, training center, and support staff office complex to allow for a full range of services we can manage and coordinate here on-site to ensure our high quality standards. Having the ability to do all our own vehicle maintenance allows us the maximum amount of control over the availability of our fleet for bookings as well as allows us hands-on knowledge of the level of service and care being put into each vehicle.

All Host-Drivers employed by Eagle are trained and undergo continuing education throughout the duration of their employment here to ensure they are up to date and aware of all US DOT and FMCSA regulations. Our employee training includes but is not limited to our new employee training program (required for all new hires regardless of prior bus driving experience), quarterly continuing education training, and annual driving assessments conducted by our training team. Our leadership team as well as our training staff are in frequent contract with our insurance

company as well as other industry networking events to ensure that we are providing relevant and accurate information in all our training materials.

ECT maintains booking practices that allow us to ensure we can provide transportation for all reservations in our own vehicles and with our own Host-Drivers. It is very important to our company mission that we provide high level service to our guests and that includes ensuring that they are traveling in one of our company-owned vehicles. Our sales and dispatch staff maintain at minimum (2) of our buses per day as backup vehicles in the event that a previously scheduled vehicle cannot leave our property due to a maintenance or scheduling obstacle. This practice allows us the flexibility to help ensure we are prepared for small and large occurrences that might prevent a vehicle from going on a trip that it is scheduled while avoiding any impact on our guests' reservations and schedules. It also helps us to manage quality control because we are coordinating all of the booking, maintenance, and detailing of our vehicles that are going out to service our guests.

In the event of an on-the-road mechanical failure, we have a 24-hour support team to help both our Host-Drivers and guests recover from the event in a timely fashion and continue their trip. Our 24-hour dispatch team includes both a mechanic team and a logistics team that work together to provide quick and efficient assistance, working in most circumstances on several concurrent solutions at a time to ensure the quickest response time possible. For mechanical failures that occur within a local radius to our headquarters, our maintenance team has a repair truck that is always ready to depart for roadside assistance needs. Our maintenance technicians are all also licensed to drive our vehicles and can bring another vehicle from our fleet to replace a bus with a mechanical failure if the event has occurred close enough for that to be a viable option.

In the event that a mechanical failure occurs far enough away from our location that sending a replacement vehicle from our own fleet or our own maintenance team is not an efficient option, our 24-hour support team would work with our many affiliate companies across the country to find a recovery plan for the guests in our vehicle. Recovery plans for a mechanical failure could include but would not be limited to: organizing a repair company to provide roadside or in route assistance, organizing another motorcoach company with an FMCSA score of satisfactory to provide transportation for part of or the remaining duration of the trip, organizing one of our Host-Drivers to bring one of our vehicles to replace another of our vehicles with a non-safety related mechanical failure, sending our own technician team and repair truck to provide assistance.

In addition to our maintenance and training practices that allow our Host-Drivers to do all required safety equipment checks before departing on a trip, we also require our Host-Drivers to check all of the free amenities that are included in each vehicle before departure from our property for each trip. They check and test that each of the following amenities is working

properly on each bus before each trip: cellular based Wi-Fi, the DVD player/entertainment system, the Roku system, the outlets at each seat, and the restrooms. This helps to ensure that all our guests are able to enjoy these free amenities during their trip. ECT also operates one 56-passenger motorcoach that is equipped with a wheelchair lift that can accommodate up to (2) passengers that need to travel in a power chair in the bus. This bus also comes with all tie downs needed to secure a wheelchair into the vehicle during transportation.

Firm's Relevant Experience and Expertise

ECT has a long and successful history of transporting school groups. We are the primary transportation provider for both primary schools as well as many colleges and universities all over the southeastern United States. Approximately 60% of our customer base is made up of schools/universities and the remaining 40% is a mix of churches, corporate groups, and individuals booking personal trips. This mix of guests allows our professional Host-Drivers a wide range of experience working and traveling with students of all ages, and we are confident that that experience will allow us to provide excellent service for the Dekalb County School District.
