Subject: Refresh Computers for Phase 2 Panels

Summary

The Office of Technology Services is seeking Board approval to issue a purchase order to Dell Technologies for 555 Dell microcomputers to service the second phase of interactive flat panels and to replace older desktops in the schools. The devices will be purchased through a state contract using ESPLOST Funds.

Background

In late 2024, the Board approved the initial purchase of Dell microcomputers to service the District fleet of interactive flat panels (IFPs). The Dell microcomputers will work with the current and new IFPs. With this additional purchase, all of the District IFPs will now have the necessary hardware to operate as expected.

The quoted pricing is procured using state contract 99999-SPD0000161-0004.

Recommendation

It is recommended that the Bibb County Board of Education authorizes the purchase order to Dell Technologies for Dell microcomputers in an amount not to exceed $679,084.58. The funding source is 2026 ESPLOST.
