Background

On April 20, 2026, the Board approved ITB 26-710 for District-wide On-Demand Electrical Services to provide district-wide electrical maintenance, repair, installation, and emergency response services on an as-needed basis.

The electrical systems of the athletic stadiums and school site gymnasiums must be renovated to meet the current uniform building codes and DeKalb County School District design standards. Due to the immediate need to make the repairs, utilizing an approved electrical contractor via ITB 26-710 will expedite completing the project.
