<b>Description of Services</b>		<b>Consideration</b>		<b>Evaluation and Metrics</b>			
Panorama Education provides Universal Social-Emotional Screening through a software platform called Panorama Social-Emotional Learning and Check-ins Platform. The platform also provides the Panorama Playbook to respond to the findings in the data. Staff will be offered a Screener as well this year.		Measuring student Social-Emotional Wellness allows schools to intervene with students who are struggling, improve communication, increase "student voice," use data to make informed decisions, evaluate the effectiveness of Social-Emotional Wellness interventions, and provide important data to guide future Social-Emotional Wellness resource allocation through the LCAP process. The Interactive Reporting Platform that is included will allow staff to view real-time results at the district and school level, with the ability to disaggregate the data across demographic subgroups to ensure we are focusing on equity as we implement SEL.		The Panorama Universal Screener itself is a metric which we will use to evaluate our SEL Implementation and interventions, through examining results on the Well-being & Social - Emotional Learning components. Additionally, we will review and increase completion rates of the Staff completed surveys on students grades K-3, Surveys Completion rates for students grades 4-12, and the newly added staff completion rates in the fall of 2022.
