Subject: Board Review and Approval of Safety Busing Changes

Idaho Code 33-1501 authorizes the transportation of students living 1.5 miles or more from school. Students living less than 1.5 miles from school may receive safety busing when approved by the Board due to unsafe conditions. In accordance with Board Policy 8116, the Safety Busing Committee reviewed the following areas and is requesting Board approval of changes to these safety busing areas:

Safety Busing Elimination, beginning with the 2023-24 school year:

1. **East Junior High, southwest side of Warm Springs Ave that's east of the school** – this summer ACHD is scheduled to install pedestrian crossing lights on Warm Springs Ave at Sky Bar St and Maynard Ave. Upon completion of these projects, a safe crossing will eliminate safety busing for approximately four students.

Safety Busing Addition, beginning with the 2023-24 school year:

1. **Valley View Elementary, southwest of Ustick Rd and Milwaukee St** – The intersection of Ustick Rd and Milwaukee St requires an adult crossing guard to provide for the safe crossing of this multi-lane intersection. Due to staffing shortages, this position has been continually vacant for the past two years. Requesting temporary safety busing until an adult crossing guard is reliably available for this location. This request will provide busing for approximately 55 students.
