

Health Guidance Considerations for COVID-19

1.

Vaccinations

Recommended range of 70%-90% vaccinated for students and staff

2.

Positive Cases

Significant declining rate covering 28 days (2 incubation cycles)

3.

Cases per 100,000

7-day average 10 cases or less per 100,00 in the community

The following considerations are used for all decisions when discussing necessary health guidelines during in-person instruction. There is no single metric that can be calculated from these three areas that will automatically trigger a change in guidance. All three will be used and given the weight needed based on the circumstances.

As of January 3, 2022

Vaccination rates:

Students age 12-17 with at least one dose: 68%

Students age 12-17 fully vaccinated: 64%

Students age 5-11 with a least one dose: 38%

Students age 5011 fully vaccinated: 29%

Staff: Between 80% and 90%

Positive cases: significant increases in cases as of 12/27/21

Cases per 100,000: 1,071 cases per 100,000 as of 1/3/22

Percent Positivity : 11.33% as of 1/3/22
